

Members of the Joint Technical Corrections Committee:

Please support and pass HCR 3049.

I am in support of recognizing parents as the Chief stakeholders of the future and education of our children.

We are commissioned by God to "Train up a child in the way they should go." (Proverbs 22:6)

We have a God given right to train up our children.

I grew up in Fargo/Moorhead and my husband is from Mandan we have both grown up in MN/ND and are now raising our 3 boys in Mandan. We love our state, we love our nation and we want the best for our kids. We have raised them to be upstanding citizens and they have helped at food banks, serving at church, and helping in the community.

We choose to get involved because of the right and responsibility of parents to be the primary directors of the upbringing, education, and care of our children without undue influence from activist educators and government overreach.

Our kids are smart and amazing. The government is not going to be a parent to my children.

Thank you for your leadership and service to our state.

Kinsey Albrecht
