

RE: North Dakota House Bill 1532

My family and I support this bill on the grounds that each child has needs that can vary greatly. Learning style and environment play a huge role in education and the freedom this bill gives parents is to ensure the best, healthiest and most productive learning environment is available to each child regardless of their parental finances. It is heartbreaking that parents sacrifice so many things to make the best educational decision for their child. We are so lucky to live in a State where we can prioritize our children's education and can help families ease financial strain associated with it.
