

Please support HOUSE BILL 1532. It is a well-known fact that if the non-public schools in the Bismarck-Mandan community did not exist, it would put a huge burden on the Bismarck and Mandan public school systems to take on hundreds of more students. Those of us who willingly pay dearly out of our pocket for a parochial education of our children should be entitled to claim a tuition reimbursement of the costs involved. Please do your best to make this work.

Thank you.
