

TESTIMONY OF  
MAJ JAY SHELDON  
NORTH DAKOTA NATIONAL GUARD  
BEFORE THE  
HOUSE INDUSTRY, BUSINESS, & LABOR COMMITTEE  
28 MARCH 2023  
SENATE BILL 2205

Good morning, Chairman Louser, members of the committee, I am Jay Sheldon, Strategy and Policy Officer for the North Dakota National Guard (NDNG) and administrator for the Task Force for Military Issues in North Dakota (TF MIND). I am here today to testify in support of Senate Bill 2205.

I would like to take a moment to explain TF MIND. It is a Governor's appointed task force chaired by the Lt. Governor with members from around North Dakota with a focus on Minot, Grand Forks, Fargo, and Bismarck, communities with the largest military footprint. The group normally meets twice a year and discusses issues that impact military members and their families in North Dakota. TF MIND has used a Department of Defense website that lists the top issues, heavily focused on occupational licensing and military children.

A Department of Defense remains focused on the removal of barriers military spouses face when trying to sustain their professional careers, despite the mobile lifestyle.

The North Dakota military community is grateful for the previous adoption of four compacts: the Enhanced Nurse Licensure Compact, Physical Therapy Licensure Compact, Advanced Practice Registered Nurse Compact, and the Emergency Medical Services Licensure Compact.

The Psychology Interjurisdictional Compact (PSYPACT) was established by the Association of State and Provincial Psychology Boards (ASPPB) Board of Directors to facilitate telehealth and temporary in-person practice of psychology across jurisdictional boundaries. PSYPACT became operational in April of 2019. More than 12 States have enacted legislation or have pending legislation.

Participating in the PSYPACT increases access to mental health service, improves continuity of care, streamlines licensing processes, and increases professional mobility.

We are amid a period when there is a greater need for services of this type than there are providers available for the general population with even fewer available for military members and their families. This would be an impactful step in gaining or retaining those services for North Dakotans in need.

The efforts the North Dakota Legislature are appreciated by the military community. Thank you for your consideration of this initiative.

I stand for questions.
