

John Aarfor, FM Walleyes Board of Directors, is submitting the following testimony on behalf of FM Walleyes President, Dave Wasness.

North Dakota House Bill 1538

There is a lot of discussion on this proposed legislation. All of which is coming from a foundation of which is best for North Dakota's resources and opportunities to access them. At this time, FM Walleyes Unlimited as a club is taking no position on this bill in favor or opposed to it. Our board members and officers have not had the opportunity to meet to discuss this proposed legislation. As President of FM Walleyes Unlimited, Inc., I do not have nor want the ability to take a stance solely on my personal opinions. We recommend everyone to review this bill and make their own decisions on whether they want to support or oppose.

Sincerely,
Dave Wasness, President
