Corrections and Rehabilitation

## Capital Projects:

Obtain funding for a women's facility and improve existing facility infrastructure to ensure safety and prevent reoffending.

- Implement facility living communities
- Enhance the rehabilitative environment of community client service offices
- Transform community client services offices into "service hubs" with other community and governmental service providers
- Complete identified deferred maintenance and identify mission-critical maintenance

## Capital Projects:

#### Women's Facility

Corrections is not only about incarcerating the sentenced but is also about the healing of the victims of crime and the community. DOCR is proposing the construction of a women's facility that provide for public safety, support stabilization, recovery, and rehabilitation in a humane setting. A secure facility designed as healing environment that supports the reintegration of the criminal justice involved person into society, and greatly improves the working conditions of team members who spend more time in the facilities than many of the residents themselves.

## Capital Projects:

Women's Facility – \$161 million (SIIF)

Women's 260 bed facility which will

support all custody levels from minimum

to maximum security levels. The facility

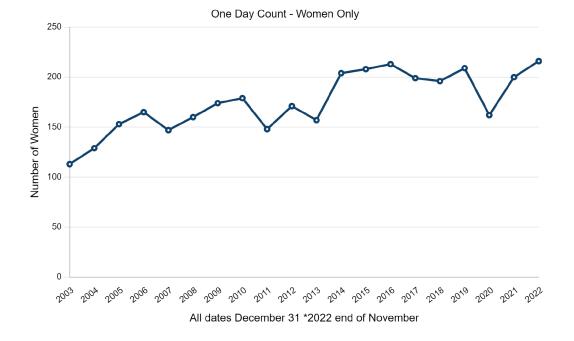

design will provide flexibility to separate

the population into groups which will

increase psychological safety and

reduce aggression and psychological

abuse between residents.
