ND sees approximately 1,000 – 1,200 confirmed cases of child abuse or neglect each year

ND sees approximately 1,000-1,200 confirmed cases of child abuse and/or neglect each year

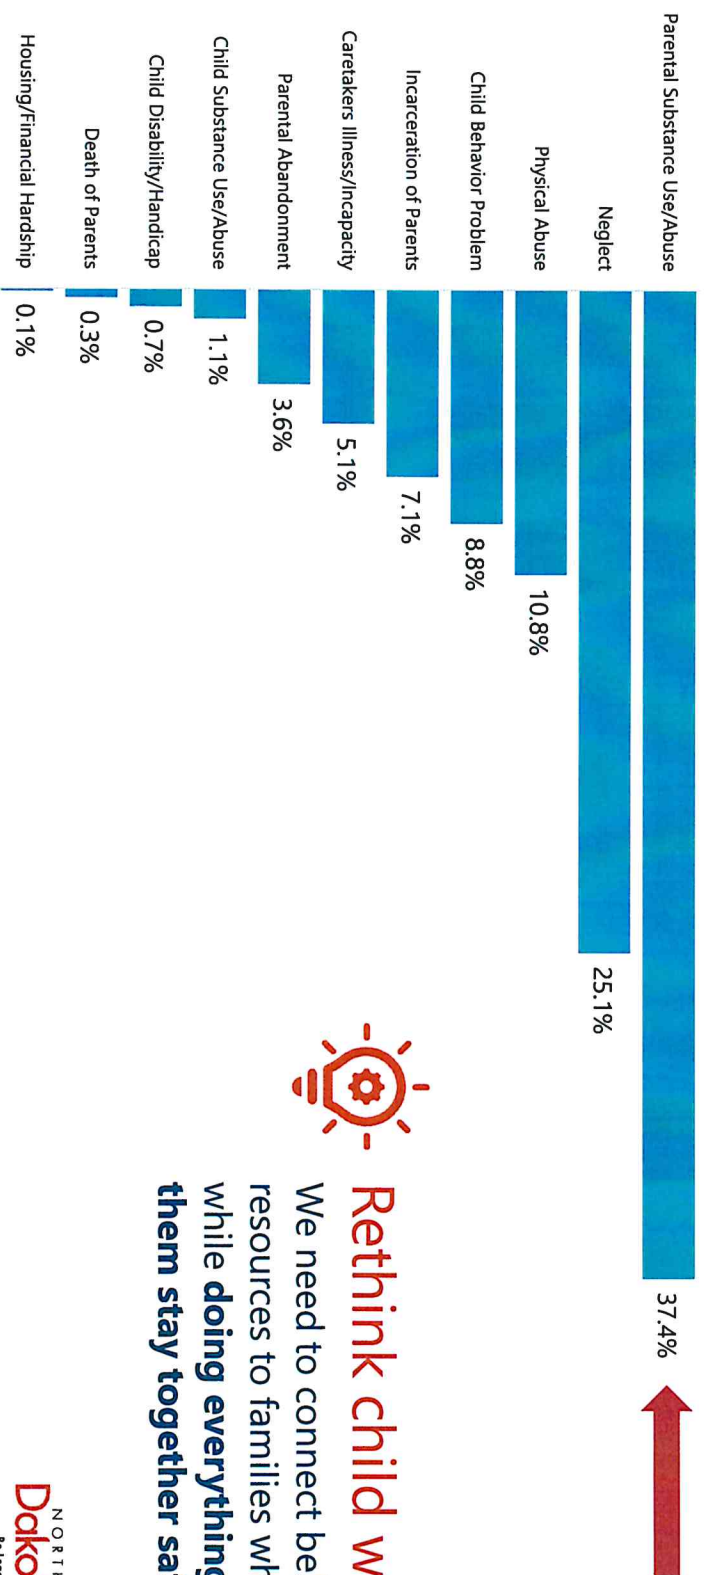

Approximately 7% of reports of suspected child abuse/neglect are ultimately confirmed

Substance abuse and unaddressed mental health needs are major de-stabilizing forces in families

REMOVAL REASONS

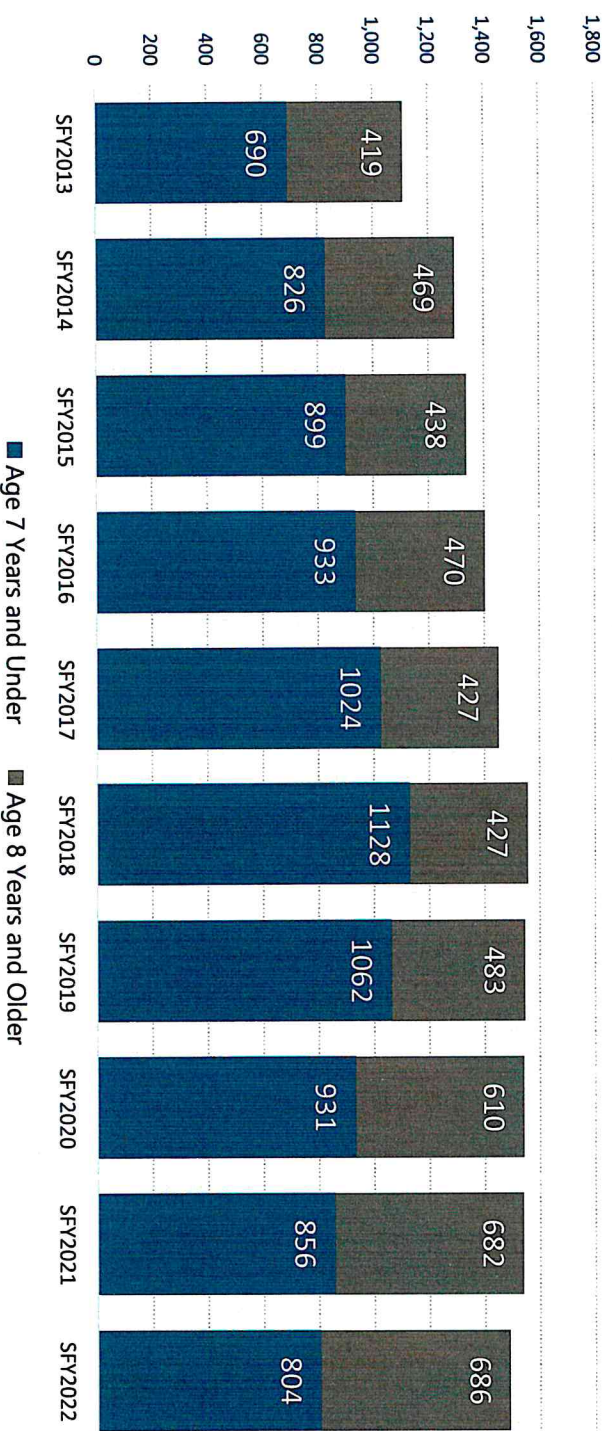

Percent of children entering care for each removal reason: SFY2022

Rethink child welfare

We need to connect behavioral health resources to families who are struggling while **doing everything we can to help them stay together safely.**

In FY22 54% of the 1,490 children in foster care are younger than age 7

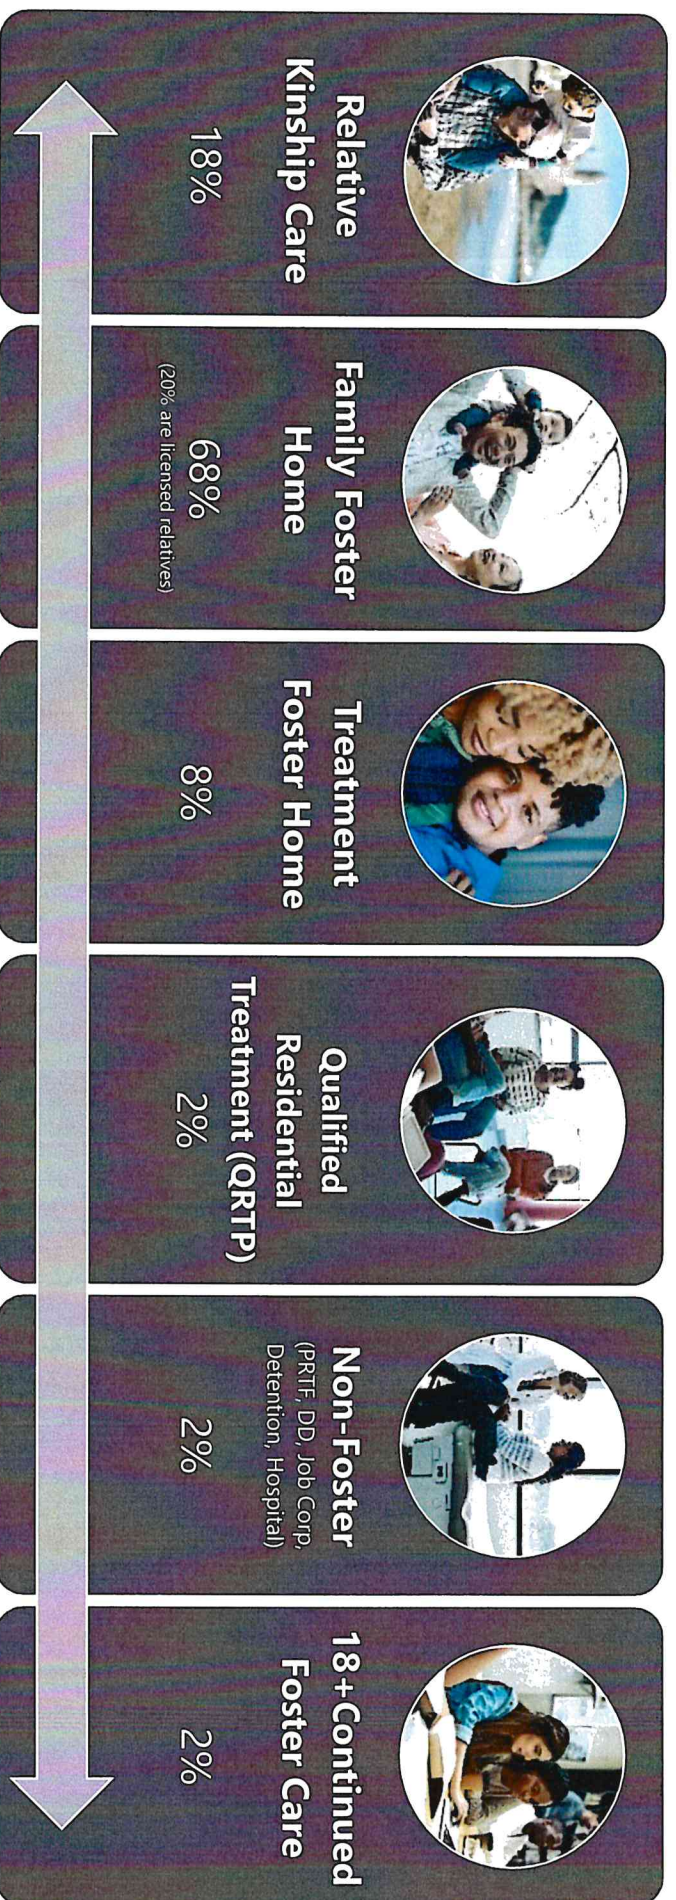

Point-in-Time Average of ND Foster Care census and those age 7 years and under, FFY 2013-2022

Early interventions with young families are key to reducing foster care placement for the youngest children.

Family foster homes provide care for 68% of children affected by an out-of-home placement

North Dakota Child Welfare System Continuum of Care

Relative adoptions accounted for 35% of all public agency adoptions in FY22

Rethink child welfare

Ongoing cost for caring for children.

Reducing foster care usage safely can provide children with permanency, keep families together and reduce ongoing costs long term.
