

House Bill 1254

Relating to the prohibition of gender-affirming care for minors

Dear Members of the Senate Human Services Committee,

My name is Shawna Grubb and I reside in District 35. I am writing to urge a DO PASS recommendation on HB 1254 which prohibits gender-affirming care for minors.

- Children and teens are being actively groomed into the cult-like ideology of transgenderism. They are being purposefully confused about their identity which inevitably leads them down a destructive and irreversible path of sterilization and bodily mutilation.

Thank you for your service to the people of North Dakota,

Shawna Grubb
