

Dear Chairman and Senate Judiciary committee,

My name is Kristin Mestan from Regent, North Dakota. I support this bill and would like you to vote DO PASS. The reason I think this bill needs to pass is because our children deserve to be protected. There is material currently available to them with graphic explicit pictures that are not educational, as some may argue. It is pornography and we need to protect our children from this evil. Thank you for your time.

Sincerely,

Kristin Mestan
