

I am writing a letter about nursing loan forgiveness. I am Eritrean, who came to the US at age 17 and graduated high school in California. My family used to live in CA. I am currently in an associate's program for RN in Fargo, but want to continue my nursing education to obtain a Bachelor's degree. This loan forgiveness will help me to accomplish my dream and stay in ND. I will graduate with this much debt from my AND program: 25000. This will give me an incentive to work, live and buy home in ND instead of going back to CA.
