- a. "Automated external defibrillator" means a lightweight, portable device capable of
   delivering an electric shock through an individual's chest to the individual's heart,
   which is used in the event of cardiac arrest to attempt to stop an irregular
   heartbeat and allow a normal rhythm to resume.
- b. "Cardiac arrest" means a life-threatening event in which an individual's heart
   unexpectedly stops beating.
  - c. "Cardiac emergency response plan" or "plan" means a written document

    establishing the specific steps to reduce the chance of death from cardiac arrest.
  - 2. The department of health and human services, in collaboration with the superintendent of public instruction, shall create a customizable cardiac emergency response plan template for schools and nonpublic schools to use to develop a plan tailored to the school or nonpublic school.

1 The cardiac emergency response plan template must integrate core elements 2 established by the American heart association or other nationally recognized 3 organization. The plan template must require: 4 Review and adoption of the cardiac emergency response plan by the district a. 5 crisis management team, which must be reviewed annually. 6 <u>b.</u> Activation of the team if an individual experiences sudden cardiac arrest. 7 Placement of automated external defibrillators on school grounds. C. 8 Routine maintenance of automated external defibrillators. <u>d.</u> 9 Distribution of the plan on school grounds. <u>e.</u> 10 Stipulation of appropriate school personnel, including licensed coaches, school f. 11 nurses, and athletic trainers, to receive training. 12 Coordination with local emergency medical services providers. <u>g.</u> 13 Annual review and evaluation of the plan. h. 14 Beginning with the 2027-28 school year, each public and nonpublic school shall: <u>4.</u> 15 Using the template provided by the department of health and human services, <u>a.</u> 16 develop a cardiac emergency response plan for inclusion in the school district 17 crisis management plan for use by school personnel if an individual experiences 18 sudden cardiac arrest or a similar life-threatening emergency on school-owned 19 grounds, and school-owned athletic venues. 20 Place each automated external defibrillator on school grounds according to the <u>b.</u> 21 guidelines established by the American heart association or an organization 22 focused on emergency cardiovascular care. 23 Identify each automated external defibrillator with appropriate signage. 24 <u>5.</u> A school, board of a school district and each individual member of the board, 25 governing board and each individual governing board member of a nonpublic school, 26 administrator, principal, teacher, school employee, and any member of the school 27 district crisis management team, whether a student or an adult, are immune from any 28 liability that might otherwise be incurred as a result of an injury caused by any act or 29 omission while carrying out any elements of the cardiac emergency response plan as 30 developed or implemented in accordance with this section.
