

**FIRST ENGROSSMENT**

**ENGROSSED HOUSE BILL NO. 1481**

Introduced by

Representatives Kasper, Dockter, Koppelman, Louser, Ostlie, D. Ruby

Senators Bekkedahl, Cleary, Clemens, Hogan, Lee, Paulson

1 A BILL for an Act to create and enact a new section to chapter 26.1-36.9 of the North Dakota  
2 Century Code, relating to dental insurer rate requirements; and to provide an effective date.

3 **BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:**

4 **SECTION 1.** A new section to chapter 26.1-36.9 of the North Dakota Century Code is  
5 created and enacted as follows:

6 **Dental insurer rates - Approval.**

- 7 1. The commissioner shall deem a proposed plan rate of a dental insurer to be excessive  
8 and disapprove the proposed plan rate if the dental insurer files a rate change and the:  
9 a. Administrative expense component, not including taxes and assessments,  
10 increases from the previous year's rate filing by more than four percent;  
11 b. Reported contribution to surplus exceeds two percent of total revenue; or  
12 c. Dental loss ratio for the plan is less than seventy-five percent.  
13 2. a. If the annual dental loss ratio for a dental benefit plan is less than seventy-five  
14 percent, the dental insurer offering the plan shall refund the excess premium to  
15 covered individuals and groups. As used in this section, "dental loss ratio" means  
16 the ratio used to determine the minimum percentage of all premium funds  
17 collected by a dental insurer each year which must be spent on actual patient  
18 care rather than overhead costs. This minimum required percentage that dental  
19 benefit plans must meet for the portion of patient premiums must be dedicated to  
20 patient care rather than administrative and overhead costs or the difference must  
21 be refunded as provided in this section.

- 1           b. A dental insurer shall provide notice to all individuals and groups that were  
2           covered under the plan during the applicable twelve-month period that such  
3           individuals and groups are entitled to a refund on the premium, or if the individual  
4           or group remains covered by the dental insurer, that the individual or group is  
5           eligible for a credit on the premium for the following twelve-month period.
- 6           c. The total of all refunds issued under this subsection must equal the amount of the  
7           dental insurer's earned premium which exceeds the amount necessary to  
8           achieve a dental loss ratio of seventy-five percent, calculated using data reported  
9           by the dental insurer.
- 10          d. The dental loss ratio is calculated by dividing the numerator by the denominator  
11          as follows:
- 12           (1) The numerator is the amount spent on care, which must include:
- 13               (a) The amount expended for clinical dental services that are services  
14               within the code on dental procedures and nomenclature, provided to  
15               enrollees which includes payments under capitation contracts with  
16               dental providers, whose services are covered by the contract for  
17               dental clinical services or supplies covered by the contract;
- 18               (b) Unpaid claim reserves; and
- 19               (c) Any claim payment recovered by insurers from providers or enrollees  
20               using utilization management efforts, which are deducted from  
21               incurred claims amounts.
- 22           (2) Any overpayment received from a provider may not be reported as a paid  
23           claim. Overpayment recoveries received from a provider must be deducted  
24           from incurred claims amounts.
- 25           (3) The calculation of the numerator does not include:
- 26               (a) All administrative costs, including infrastructure, personnel costs, or  
27               broker payments;
- 28               (b) Amounts paid to third-party vendors for secondary network savings;
- 29               (c) Amounts paid to third-party vendors for network development,  
30               administrative fees, claims processing, and utilization management; or

- 1                   (d) Amounts paid to providers for professional or administrative services  
2                   that do not represent compensation or reimbursement for covered  
3                   services provided to an enrollee, including dental record copying  
4                   costs, attorney fees, subrogation vendor fees, and compensation to  
5                   paraprofessionals, janitors, quality assurance analysts, administrative  
6                   supervisors, secretaries to dental personnel, and dental record clerks.
- 7                   (4) (a) The denominator is calculated using insurer revenue.  
8                   (b) The earned premium is all monies paid by a policyholder or subscriber  
9                   as a condition of receiving coverage from the issuer, including any  
10                   fees or other contributions associated with the dental benefit plan.
- 11                   (c) The denominator is the total amount of the earned premium revenues,  
12                   excluding federal and state taxes and licensing and regulatory fees  
13                   paid after accounting for any payments pursuant to federal law.
- 14                   3. The commissioner may:
- 15                   a. Authorize a waiver or adjustment of the refund requirements in this section only if  
16                   it is determined by the commissioner that issuing refunds would result in financial  
17                   impairment for the dental insurer.
- 18                   b. Adopt rules to implement and administer this section.
- 19                   4. This section does not apply to a dental insurer with one thousand enrollees or less  
20                   cumulative of all plans based on a three-year average.

21                   **SECTION 2. EFFECTIVE DATE.** This Act becomes effective on January 1, 2027.
