

Testimony in **SUPPORT of SB2322**

I urge the committee to recommend a **“Due Pass” on SB 2322, SB 2335, SB2313,**

In regard to SB2322 No landowner should ever be subject to an **eminent domain taking** when a project is already tax payer funded (45Q) .

ND landowners should NEVER be expected to have the burden of giving up land for a NON public use project that is already funded by the taxpayer as part of the new green deal (likely to repealed by executive order)

It is without a doubt an injustice that a landowner funds the project through taxation, then that project “takes” his land too.

This committee must affirm SB 2322
