^{*} The gross premium amounts are taken from amounts reported by insurance companies. The tax collected is calculated at 1.75% of the gross premiums reported in accordance with NDCC 26.1-03-17. The above amounts do not include any adjustments or corrections made to submitted reconciled tax returns. The Department does not track tax collected on individual lines of insurance.

^{**} The Fire, Allied Lines, Homeowner's Multiple Peril, Farmowner's Multiple Peril, and Commercial Multiple Peril lines data are from the previous calendar years' annual reports provided by the companies. For example, the money disbursed in fiscal year 2018 was based on the premiums reported for calendar year 2016. This delay is due to the timing of filing and disbursement deadlines. Fiscal year 2018 disbursements were made in November 2017 and based on the returns filed for calendar year 2016. that were due in March 2017.

^{***} Of this amount, only \$15,692.28 was used and the remaining \$484,307.72 was transferred to the General Fund in August 2017.
