

Lanny Kenner
District 7

Chairman Weber and committee members,
I am urging a DO PASS on HB1168 but not in it's amended form.

In order to comply with the ND Constitution, K through 12 is supposed to be paid by the state which HB1168 would do in it's original, unamended form.

It would also help farmers, residential property and small business

You and I both know ND has enough money to pay for ALL the property tax but at least this may stop us from doing another initiative measure to get rid of property taxes in ND.

This session we have already seen how our legislature has proven they care more about big out of state businesses than our own residents!

It's time to show the residents you are looking out for us!

By the way, HB1176 should not be considered for obvious reasons.

Please PASS HB1168 in it's original form, not in the amended form.

Thank you, Lanny Kenner
