Other nonresident	\$4,251 2.6%	\$4,403 3.6%	\$4,537 3.1%	\$4,673 3.0%	\$0	\$0

<sup>\1</sup> The 2001-03 executive budget removes tuition income from the appropriation process and therefore does not make a recommendation regarding tuition rates.

<sup>\2</sup> The Minnesota/North Dakota reciprocity agreement calls for the higher of the two state rates. The rate will most likely be the Minnesota rate; however, the Minnesota rate is not known at this time.

<sup>\3</sup> The contiguous states and provinces are South Dakota, Montana, Saskatchewan, and Manitoba. The contiguous state/province tuition rate is 1.5 times the resident rate for students attending the University of North Dakota, North Dakota State University, and graduate students at Minot State University. The contiguous state/province tuition rate is 1.25 times the resident rate for undergraduate students at Minot State University and at all remaining four- and two-year institutions.

<sup>\4</sup> Physical therapy students pay undergraduate tuition rates during the first two years. In the students' junior year, they enter the physical therapy program and start paying tuition based on the physical therapy program tuition rates.

<sup>\5</sup> Bismarck State College implemented a per credit tuition model pilot program beginning in the 2000-01 academic year. The institution charges a per credit (part-time) tuition rate for all credit hours except for the 14th and 15th credits, which are at no charge. The tuition rates shown are based on a credit load of 15 credit hours per semester, which is the number of credit hours taken by an average full-time student.
