\1 The schedule provides information regarding tuition rates for major programs offered for academic years 1999-2000 through 2003-04. The 2001 Legislative Assembly removed tuition income from the appropriation process by providing a continuing appropriation for all special funds, including tuition. House Bill No. 1003 (2003) continues this authority through June 30, 2005. The State Board of Higher Education has the statutory responsibility for setting tuition rates.

\2 For the 2002-03 and 2003-04 academic years, the State Board of Higher Education authorized each higher education institution president to set the final tuition rate for each campus within an approved range.

\3 Bismarck State College implemented a per credit tuition model program beginning in the 2000-01 academic year. The institution charges a per credit (part-time) tuition rate for all credit hours except for the 14th and 15th credits, which are at no charge. The tuition rates shown are based on a credit load of 15 credit hours per semester, which is the number of credit hours taken by an average full-time student.

\4 Under the current North Dakota/Minnesota reciprocity agreement, students pay the higher of the two states' rates, which allows North Dakota students attending Minnesota higher education institutions to pay the Minnesota resident rate while Minnesota students attending North Dakota higher education institutions generally pay the Minnesota rate, which is higher than the North Dakota rate.

\5 The contiguous states and provinces are South Dakota, Montana, Saskatchewan, and Manitoba. In most cases, the contiguous state/province rate is 1.5 times the resident rate for students attending the University of North Dakota, North Dakota State University, and graduate students at Minot State University, and the contiguous state/province tuition rate is 1.25 times the resident rate for undergraduate students at Minot State University and at all remaining four- and two-year institutions. Exceptions include the rate for students enrolled in the State College of Science business and industry partnership program, students enrolled in the University of North Dakota physical therapy program, and students enrolled at Minot State University - Bottineau and Williston State College for the 2002-03 and 2003-04 academic years.

\6 Minot State University instituted a tuition rate increase for both the fall and spring semesters of the 2002-03 academic year. The following is a summary of the fall and spring tuition cost per semester for the 2002-03 academic year:

	Fall 2002	Spring 2003
Undergraduate		
Resident	\$1,172	\$1,212
Minnesota resident	\$1,360	\$1,406
Contiguous state/province	\$1,465	\$1,515
Other nonresident	\$3,129	\$3,236
Graduate		
Resident	\$1,557	\$1,597
Minnesota resident	\$2,078	\$2,131
Contiguous state/province	\$2,336	\$2,396
Other nonresident	\$4,157	\$4,264

^{\7} For academic years 2002-03 and 2003-04, the State College of Science is offering special reduced tuition rates to contiguous state/province and other nonresident students who live on campus with a meal plan. The following is a summary of the special reduced tuition rates:

	2002-03	2003-04
Undergraduate		
Contiguous state/province	\$1,782	\$2,052
Other nonresidents	\$2,673	\$3,078

^{\8} Beginning with the 2001-02 academic year, the State College of Science charges resident tuition rates to all students enrolled in business and industry partnership programs except for students from Minnesota who are assessed tuition as specified in the reciprocity agreement between North Dakota and Minnesota.

^{\9} Physical therapy students pay undergraduate tuition rates during the first two years. In the students' junior year, they enter the specialized program and start paying tuition based on the programs' tuition rates.

^{\10} Williston State College implemented a per credit tuition model program beginning in the 2002-03 academic year. The institution charges a per credit (part-time) tuition rate for all credit hours except for the 14th, 15th, and 16th credits, which are at no charge. The tuition rates shown are based on a credit load of 15 credit hours per semester, which is the number of credit hours taken by an average full-time student.

^{\11} The tuition rates for Minnesota residents for the 2003-04 academic year will not be finalized until June or July 2003. The rates shown are based on the current North Dakota/Minnesota tuition rate ratio.
