¹As of May 2005 six transfers have been made from the tobacco settlement trust fund totaling \$20,839,504. Total transfers of \$68,781,220 have been made to date from the tobacco settlement trust fund to the water development trust fund.

²Revenues - Interest earned on the water development trust fund is deposited in the state general fund. The tobacco settlement revenues for the water development trust fund were estimated to be \$23,072,046 for the 2003-05 biennium at the end of the 1999 legislative session. The decrease in the amount of revenues collected from the tobacco settlement trust fund of \$2,232,542 is the result of volume adjustments made to payments received. A volume adjustment is an adjustment made to a settlement payment to reflect increases or decreases in tobacco manufacturers' operating income from cigarette sales. The original estimate was calculated before the anticipated effect of volume adjustments on tobacco settlement collections was determined. The revenues for the water development trust fund originally estimated during the 1999 legislative session and the estimated collections as revised by the Office of Management and Budget to reflect anticipated volume adjustments are:

Biennium	1999 Original Estimated Collections	Office of Management and Budget Revised Estimated Collections
1999-2001	\$25,917,197	\$23,805,353
2001-03	27,514,610	24,136,363
2003-05	23,072,046	20,839,504
2005-07	23,072,046	20,674,860
2007-17 (\$37,003,986/\$33,159,270 per biennium)	185,019,930	165,796,350
2017-25 (\$26,366,170/\$23,626,724 per biennium)	105,464,680	94,506,896
Total	\$390,060,509	\$349,759,326

³ The State Water Commission plans to reimburse the water development trust fund for a portion of 2003-05 biennium expenditures from bond proceeds prior to the end of the 2003-05 biennium. Actual water project expenditures of \$8.6 million have been incurred from the water development trust fund as of May 1, 2005.

⁴ The 2003 Legislative Assembly, in Section 15 of Senate Bill No. 2022 (2003), provided for a transfer of \$10,070,373 from the water development trust fund to the general fund. As of May 3, 2005, the entire \$10,070,373 has been transferred to the general fund. The 2003-05 biennium appropriation for the State Water Commission administrative expenses of \$9,385,396 is from the general fund.

⁵ Senate Bill No. 2022 (2003) appropriated \$32,946,225 from the water development trust fund to the State Water Commission. The funding is for bond payments (approximately \$5.4 million), reimbursement to the State Department of Health for nonpoint sources of pollution control expenses (up to \$300,000), and other water control projects (approximately \$27.2 million). The Emergency Commission and the Budget Section approved a transfer of \$14.5 million of spending authority within the special funds line item from the water development trust fund to the resources trust fund for water projects. The transfer of spending authority was requested to more accurately reflect the actual July 1, 2003, beginning balances and the corresponding 2003-05 biennium appropriation of each of the funds. Actual expenditures during the 2001-03 biennium were higher than projected from the water development trust fund and less than projected from the resources trust fund (the July 1, 2003, beginning balance of the water development trust fund was estimated to be \$23.3 million at the close of the 2003 legislative session). The adjusted spending authority from the water development trust fund for water development projects (\$13,021,452) and bond payments (\$5,424,773) is \$18,446,225.

⁶ Senate Bill No. 2188 (1999) (North Dakota Century Code (NDCC) Section 61-02.1-02) authorized the State Water Commission to borrow up to \$84.8 million for state water projects to be repaid from the water development trust fund. In March 2000 the State Water Commission issued bonds totaling \$27.5 million--\$23 million for Grand Forks flood control and \$4.5 million for the Southwest Pipeline Project. The Legislative Assembly authorized, in Senate Bill No. 2022 (2003) and further amended in House Bill No. 1153 (2005), the State Water Commission to issue up to \$60 million in bonds during the 2003-05 biennium. Bond payments on the March 2000 issuance for the 2003-05 biennium will be approximately \$5.4 million. Principal and interest payments on the \$60 million issuance will not be payable until the 2005-07 biennium.

⁷ Section 5 of House Bill No. 1021 (2005) appropriated \$29,963,873 from the water development trust fund for authorized uses by the State Water Commission. Any additional amount in the water development trust fund that becomes available is appropriated to the State Water Commission for defraying the expenses of the agency. Based on estimated revenues, approximately \$6,553,431 will be available for water projects from the water development trust fund.

The total bond payments for the 2005-07 biennium, including anticipated principal and interest payments on the \$60 million bonds issued during the 2003-05 biennium, will be approximately \$14.3 million. The Legislative Assembly also authorized, in House Bill No. 1021 (2005), the State Water Commission to issue up to \$7 million in bonds during the 2005-07 biennium. However, because the bonds are not anticipated to be issued until the second year of the biennium, principal and interest related to the issuance will not be payable until the 2007-09 biennium.

The Legislative Assembly appropriated \$9,116,325 (including the appropriation included in House Bill No. 1050) from the water development trust fund for administrative expenses of the State Water Commission.

FUND HISTORY

North Dakota Century Code Section 54-27-25, created by 1999 House Bill No. 1475, established a water development trust fund to be used for the long-term water development and management needs of the state. This section creates a tobacco settlement trust fund for the deposit of all tobacco settlement money obtained by the state. Money in the fund must be transferred as follows, within 30 days of its deposit in the fund:

- Ten percent to the community health trust fund.
- Forty-five percent to the common schools trust fund.
- Forty-five percent to the water development trust fund.

North Dakota Century Code Section 61-02.1-04, created by 1999 Senate Bill No. 2188, provides that the principal and interest on bonds issued for flood control projects, the Southwest Pipeline Project, and an outlet to Devils Lake must be repaid with money appropriated from the water development trust fund.
