²The executive budget recommends **consolidating funding** for the state school aid program, including per student payments, teacher compensation payments, special education average daily membership payments, revenue supplemental payments, and tuition apportionment payments, into a new state school aid funding formula with a new distribution methodology. Therefore, the per student payment amounts are not comparable between the 2005-07 and 2007-09 bienniums.

³The executive budget recommends eliminating the state school aid mill levy deducts; however, the executive budget recommendation for the state school aid program does include a base payment adjustment if the local taxing effort is considerably below the statewide average.
