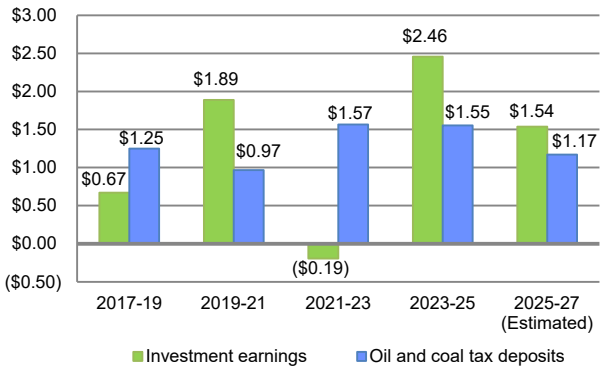
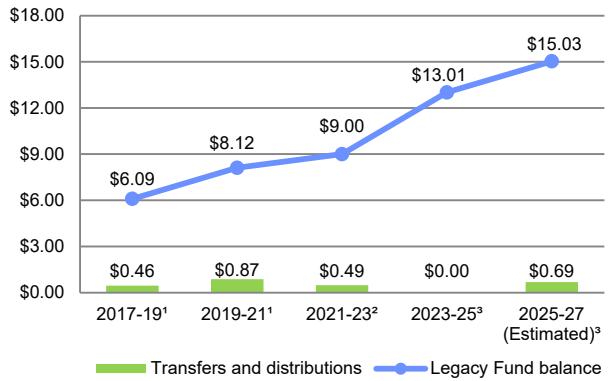
LEGACY FUND

The Legacy Fund was created in 2010 when the voters of North Dakota approved a constitutional amendment to allocate 30 percent of oil and gas taxes to the Legacy Fund. A statutory formula provides a distribution from the Legacy Fund each biennium to support legislative initiatives, including property tax relief. Any expenditure of principal requires approval of at least two-thirds of the members elected to each house of the Legislative Assembly. As amended in November 2024, not more than 5 percent of the principal of the fund may be spent during a biennium.

Legacy Fund Earnings and Deposits
(Amounts Shown in Billions)



Legacy Fund Balance and Transfers
(Amounts Shown in Billions)



[1]Earnings were transferred to the General Fund at the end of the 2017-19 and 2019-21 bienniums based on interest, dividends, and realized earnings.

[2]The 2017-19 end of biennium transfer was based on a percent of market value calculation (POMV) using 7 percent of the 5-year average balance of the Legacy Fund.

[3]No transfers were made in the 2023-25 biennium pursuant to constitutional changes in November 2024. The distribution to the Legacy Earnings Fund at the beginning of the 2025-27 biennium is based on a POMV using 8 percent of the 5-year average balance of the Legacy Fund.

[1]The 2019 Legislative Assembly provided $113 million from the Foundation Aid Stabilization Fund for ongoing funding for integrated formula payments ($110 million) and one-time funding for rapid enrollment grants ($3 million).

[2]The 2023 Legislative Assembly provided $14 million from the Strategic Investment and Improvements Fund for integrated formula payments. In 2025 the Legislative Assembly authorized the Department of Public Instruction to continue up to $11 million remaining in the integrated formula payments line item at the close of the 2023-25 biennium to the 2025-27 biennium for integrated formula payments.

STATE SCHOOL AID FORMULA - INTEGRATED FORMULA PAYMENTS

In 2013 the Legislative Assembly approved the implementation of a new integrated formula payment to provide school funding. The formula provides the state will determine an adequate base level of support necessary to educate students by applying an integrated formula payment rate to the weighted student units (WSUs) of the school district. For the 2025-27 biennium, the integrated payment rates are increased 2.5 percent each year of the biennium to provide $11,349 per WSU during the 1st year of the biennium and $11,633 per WSU during the 2nd year of the biennium. Integrated formula payments during the 2025-27 biennium were estimated based on 2025-26 school year average daily membership (ADM) of 118,429 students, or 140,788 WSUs, and 2026-27 school year ADM of 118,997 students, or 141,486 WSUs. This base level of support will be provided through a combination of local tax sources, local revenue, and state integrated formula payments. The local funding requirement is set at 60 mills and a percentage of identified local in lieu of property tax sources and local revenues. Base-level support not provided by local sources is provided by the state through the integrated formula payment. Based on estimated local property values and local revenue during the 2025-27 biennium, state support is estimated to provide 73 percent of integrated formula payments.

Property tax reform approved in House Bill 1176 (2025) limits school district budget increases to 3 percent each year and may impact school districts' ability to levy the total mills deducted in the formula. Section 28 of the bill provided for an Integrated Formula Gap Funding Program to hold harmless certain school districts that may have more funding deducted in the state school aid formula than can be assessed under the new provisions. The bill allows the Department of Public Instruction to use funding provided for integrated formula payments to provide the gap funding. If the department anticipates a shortfall in funding for integrated formula payments for the 2025-27 biennium, the Superintendent of Public Instruction must request a deficiency appropriation from the 70th Legislative Assembly.

COMMON SCHOOLS TRUST FUND

The Common Schools Trust Fund is provided for in Article IX of the Constitution of North Dakota, which provides that the fund is to be used to support the common schools of the state. The fund consists of income from state lands dedicated for the support of schools, 10 percent of oil extraction tax revenue, and funds received by the state under the Uniform Unclaimed Property Act. Distributions are made annually from the fund for the benefit of schools based on the provisions of Section 2 of Article IX of the Constitution of North Dakota.

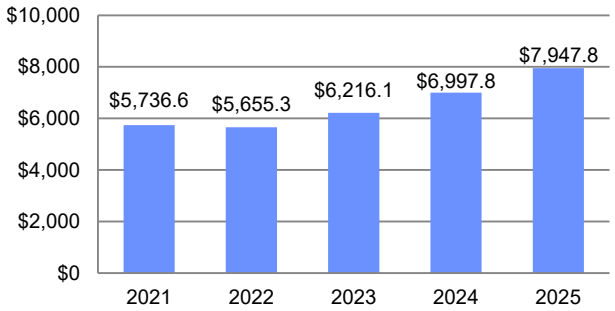
(Excluding Land and Mineral Values)
(Amounts Shown in Millions)



NOTE: The unaudited fund balance of the Common Schools Trust Fund as of May 31, 2026, is estimated to be $9.1 billion.

FOUNDATION AID STABILIZATION FUND

The Foundation Aid Stabilization Fund was created in 1994 when the voters of North Dakota approved a constitutional amendment--now Section 24 of Article X of the Constitution of North Dakota--to provide that 20 percent of oil extraction tax revenue be allocated to the Common Schools Trust Fund (10 percent) and the Foundation Aid Stabilization Fund (10 percent). In November 2016 voters approved Senate Concurrent Resolution 4003 (2015), which amended the Constitution of North Dakota to allow the Legislative Assembly to appropriate or transfer the principal balance of the Foundation Aid Stabilization Fund in excess of 15 percent of the General Fund appropriation for state school aid for education-related purposes. Balances as of the end of the biennium are as follows:

	2023-25 Biennium Actual	2025-27 Biennium Estimated
Ending balance	$479,415,112	$417,727,272

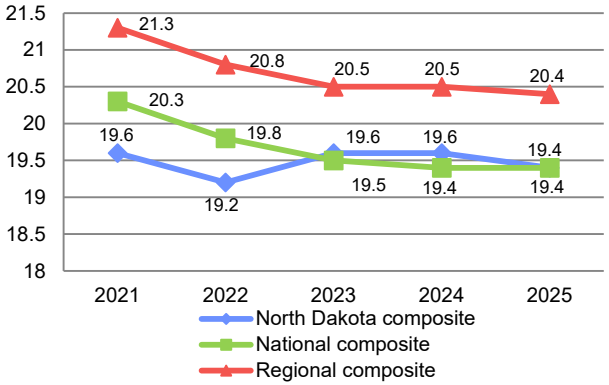
ACT PROGRAM SCORES

The ACT Program scores are designed to predict a student's potential for success in college. Below are average composite scores out of a possible 36 for North Dakota students as well as the average scores for regional states and the nation.

Comparison of Average ACT Scores[1]



[1]The regional composite includes students tested in Iowa, Minnesota, Montana, South Dakota, and Wyoming. For analysis, ACT recommends grouping states testing 75 percent or more of graduating students. In 2025, Montana, North Dakota, and Wyoming tested more than 75 percent of graduating students and posted composite scores less than 20.0. Iowa, Minnesota, and South Dakota tested less than 75 percent of graduating students and posted composite scores over 20.0. States with higher percentages of students tested tend to have scores more representative of all students within the state, whereas states with lower percentages of students tested tend to include more college-bound, higher-achieving students.

NATIONAL ASSESSMENT OF EDUCATIONAL PROGRESS

The national assessment of educational progress (NAEP) is the only nationally representative and continuing assessment of what America's students know and can do in various subject areas. Assessments are conducted periodically in mathematics, reading, science, and writing.

Since NAEP assessments are administered uniformly using the same sets of test booklets across the nation, NAEP results serve as a common metric for all states. The NAEP assessments were not administered in 2021. Testing resumed in 2022 and will result in a new pattern of testing in even-numbered years.

MOTOR FUELS TAXES

Both gasoline and special fuels (diesel) are taxed in North Dakota at a rate of 23 cents per gallon. A one-cent increase in the gas and special fuels tax is estimated to generate an additional $7.3 million per year or $14.6 million for a biennium. The federal tax rate per gallon is 18.4 cents for gasoline and 24.4 cents for diesel fuel.

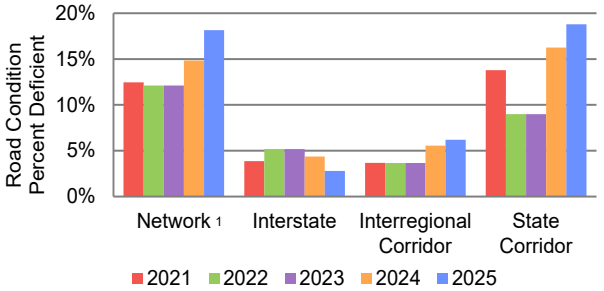
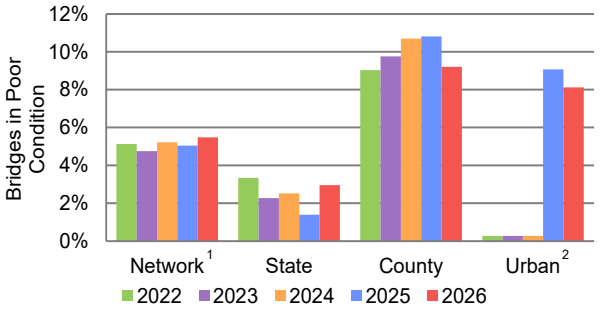
HIGHWAY SYSTEM CONDITION



[1]Network includes interstate, interregional corridor, state corridor, district corridor, and district collector roadways.

- **Interregional corridor** - Second highest level roadways that are two- or four-lane routes carrying high- to moderate-traffic volumes between states and over long distances within North Dakota.
- **State corridor** - Roadways that generally carry more traffic over longer in-state distances that are expected to have a higher level of reliability, condition, and mobility than those lower tiers.
- **District corridors and collectors** - These roadways often serve as connections to higher level roadways.

BRIDGE SYSTEM CONDITION



[1]Network includes all state, county, and urban bridges.
[2]The increase in urban bridges reported in poor condition relates to the addition of the Minot 3rd Street bridge to the poor condition rankings.
