Below this is a secondary navigation bar with a logo for the Legislative Branch and links for Constitution, Laws, and Admin Code; Legislative Assembly; Session Information; Interim Information; Budget Information; and Research and Archives. On the right of this bar are search boxes for 'Find a bill' (with a Year dropdown) and 'Find my legislator' (with an Enter bill # field).

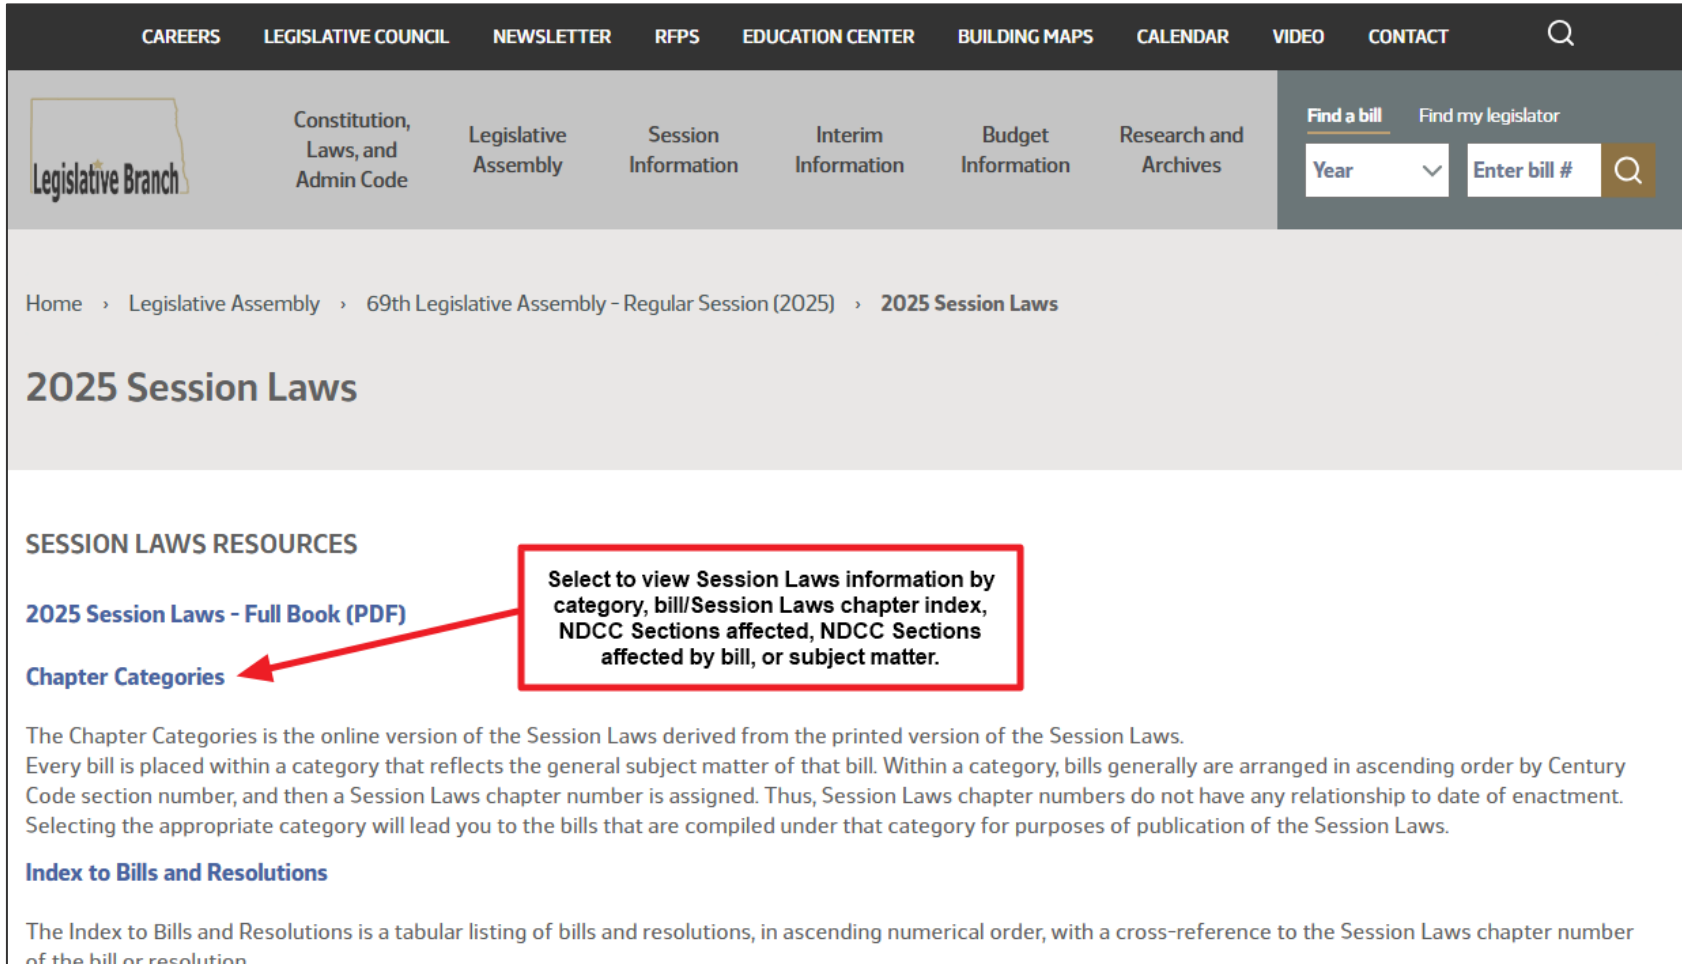

The main content area has a breadcrumb trail: Home > Research and Archives > Session Laws. The title 'Session Laws' is followed by a paragraph explaining that Session Laws of North Dakota are published after each regular and special legislative session and contain laws enacted during that session, veto messages of the Governor, measures submitted to the electorate since the last session, and resolutions. It also notes that Session Laws of the Territory of Dakota are included in the listing.

Below the text is a section titled 'Research and Archives' with a sidebar on the left containing links for 'Resources By Main Topic Area', 'Bills and Resolutions', 'Bill and Resolution Histories', and 'Title Summaries'. The main content area lists various session laws as links, arranged in two columns. It also mentions that selecting a category leads to bills compiled under that category. At the bottom, there is a link for 'Index to Bills and Resolutions' and a paragraph explaining that it is a tabular listing of bills and resolutions in ascending numerical order, with a cross-reference to the Session Laws chapter number of the bill or resolution.

Select to view Session Laws information by category, bill/Session Laws chapter index, NDCC Sections affected, NDCC Sections affected by bill, or subject matter.

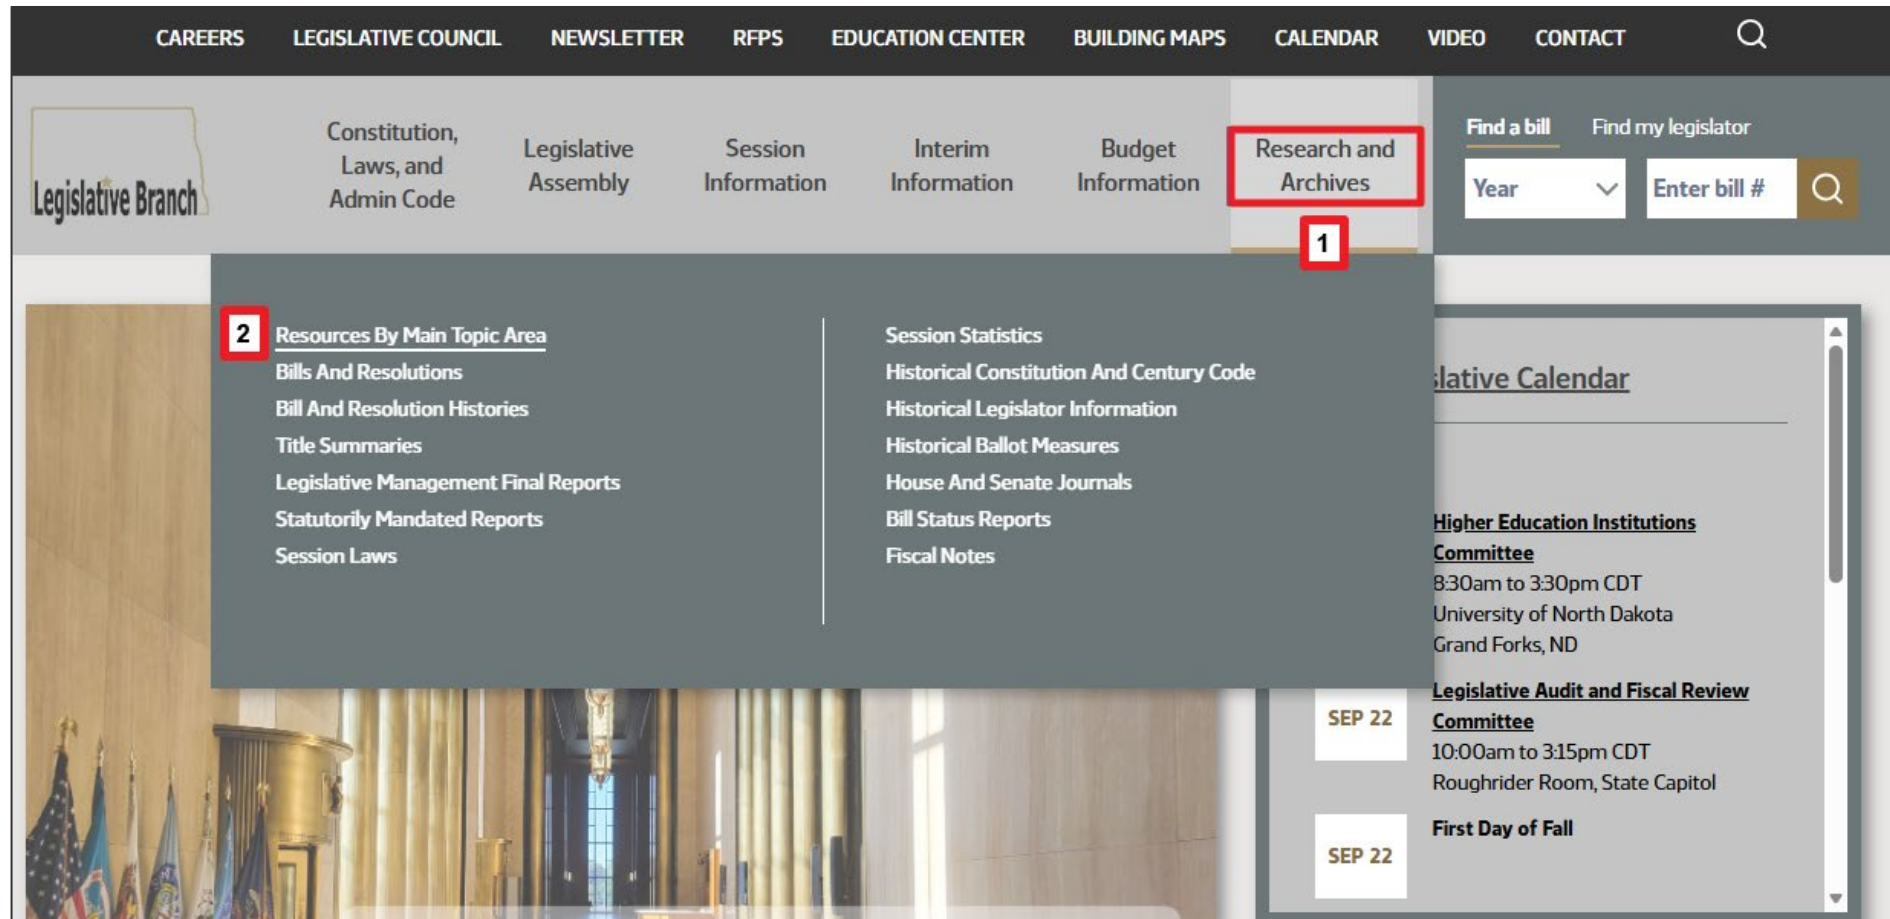

The Chapter Categories is the online version of the Session Laws derived from the printed version of the Session Laws. Every bill is placed within a category that reflects the general subject matter of that bill. Within a category, bills generally are arranged in ascending order by Century Code section number, and then a Session Laws chapter number is assigned. Thus, Session Laws chapter numbers do not have any relationship to date of enactment. Selecting the appropriate category will lead you to the bills that are compiled under that category for purposes of publication of the Session Laws.

[Index to Bills and Resolutions](#)

The Index to Bills and Resolutions is a tabular listing of bills and resolutions, in ascending numerical order, with a cross-reference to the Session Laws chapter number of the bill or resolution.

SEARCH - TIPS

Excluding Words

- You may exclude a word from your search by putting a minus sign (“-”) immediately in front of the term you want to exclude. Make sure you include a space before the minus sign. For example:

tax -liquor

- will return content containing “tax” that does not contain the word “liquor”

Does Capitalization Matter?

- Searches are not case sensitive. All letters, regardless of how you enter them, are understood as lowercase. For example, searches for “north dakota,” “North Dakota,” and “NORTH DAKOTA” all return the same results.

SEARCH - TIPS

Phrase Searches

- You can search for phrases by adding quotation marks. Words enclosed in double quotes (“tax in lieu of”) appear together in all returned documents.
- Certain characters serve as phrase connectors. Phrase connectors work like quotes because they join your search words in the same way double quotes join your search words. For example:

water-related

is treated as a phrase search even though the search words are not enclosed in double quotes. The search engine recognizes hyphens, slashes, periods, equal signs, and apostrophes as phrase connectors.

SEARCH

Search can be narrowed by selecting **CATEGORIES** and a **YEAR**.

The screenshot shows the Legislative Branch search interface.
