Ellen LeTang, Committee Clerk

REPORT OF STANDING COMMITTEE

HB 1062: Industry, Business and Labor Committee (Rep. Lefor, Chairman) recommends **DO NOT PASS** (14 YEAS, 0 NAYS, 0 ABSENT AND NOT VOTING). HB 1062 was placed on the Eleventh order on the calendar.

HOUSE BILL NO. 1062

Presented by: **John Arnold**
 Deputy Commissioner
 North Dakota Insurance Department

Before: **House Industry, Business and Labor Committee**
 Representative Mike Lefor, Chairman

Date: **January 12, 2021**

TESTIMONY

Good Morning, Chairman Lefor and members of the committee. My name is John Arnold and I am the Deputy Insurance Commissioner for the North Dakota Insurance Department. I appear before you this morning in support of House Bill 1062, which was introduced at the request of Commissioner Godfread, and deals with certain records from insurance companies licensed in this state.

Section one would eliminate the need for insurance companies to have published an abstract of the annual statement that they file with the Department. Currently, this abstract must be published three times in a newspaper of general circulation in each judicial district in which the company conducts business. As an alternative, the Department is suggesting that this abstract be made available solely on its website. We believe that this increases access to the public and reduces an expense to insurance companies. An example of the abstract is attached to this testimony.

Sections two and three extend the confidentiality granted to the workpapers of the Department's statutory financial examinations to those of the quarterly financial analysis and of market conduct examinations. The Department has found that the confidentiality of workpapers in financial examinations leads to an increase in transparency through the free flow of information between insurers and examination staff.

Finally, section four would exempt rate and form filings from open records laws until the they have been approved by the Department. This includes filings that insurers have withdrawn from consideration or the Department has disapproved.

I respectfully request a “do pass” recommendation from the committee on House Bill 1062. I am happy to take any questions.

House Industry, Business & Labor Committee HB 1062

CHAIRMAN LEFOR AND COMMITTEE MEMBERS:

My name is Jack McDonald. I'm appearing on behalf of the North Dakota Newspaper Association (NDNA). We oppose HB 1062.

First, there has been no great demand for this bill as far as NDNA is concerned. It was first enacted in much the form it is in today in 1895 as part of North Dakota's Revised Code, just six after statehood, and has been on the books since then. It was renumbered a bit in 1983 as part of a massive revision of the Insurance Code and has been unchanged since then.

So why do we need to change it now? The Insurance Commissioner has said he wants to see the Legacy Funds invested in North Dakota, and yet here he is taking nearly \$600,000 of out-of-state funds invested in mostly small, locally owned North Dakota businesses away.

Secondly, he says he wants to put them where people will see them – on his web page. I'm sure most North Dakotans, whether in Hettinger, or Lisbon, or Crosby, sit down at their morning breakfast and coffee, and then say, "Gee, I'd like to scroll through the Insurance Commissioner's web page this morning just see what's new.

You know that's not going to happen. He's tucking these abstracts away where they are likely not to be seen by anybody except other insurance companies and agents, and not North Dakota citizens.

And, in the final portion of the bill, it appears this information will be confidential until the Commissioner makes a final determination the filing is approved which will take who knows how long. Now it is public when he determines it's not confidential.

NDNA respectfully requests that you give this bill a DO NOT PASS.

Thank you for your time and consideration. I'd be happy to answer any questions.

Sarah Elmquist Squires
North Dakota Newspaper Association
HB1062
Against

Dear Reps. Lefor, Keiser, Adams, Anderson, Hagert, Kasper, Louser, Nehring, O'Brien, Ostlie, Ruby, Schauer, Stemen and Thomas:

I'm writing to you, members of the House Industry, Business and Labor Committee, urging you to vote "no" on HB 1062.

As a representative of the state's newspapers, I see the harm that this bill could do to main streets across our state. Insurance public notices bring in \$670,000 annually to newspapers, most of which are small town, community papers that are the heart of rural life in North Dakota. Newspapers are also the bellwether of local economies, and have worked hard to continue to share our community stories and news despite the economic challenges experienced by most family businesses during these uncertain times. For some papers, this could be a final blow after decades – some more than a century – of weathering all types of historic hardships for generations. And for what? Who does this bill benefit? Certainly not your constituents, your Main Street, or your town.

The tourism folks always tell us that for each dollar brought into your community, the local economic benefit is sevenfold. Whether you agree with that math, over half a million in outside funds to communities in our state is significant. Hiding notices on insurance company websites isn't a benefit to your district or constituents. It could be a blip on an out-of-state insurance company spreadsheet, but it would definitely be another economic blow to our hometowns during a time when we're all struggling to get back on our feet.

The purpose and benefit of public notices is that they are accessible to the public. But 34% of seniors don't go online, and 22% of rural folks don't have access to the web. According to NDNA's 2020 state survey, 86% of North Dakotans read newspapers, and that's where they go to find public notices. That's where public notices should stay.

Thank you for taking the time to read and listen to public testimony about HB 1062. Please vote to keep insurance public notices – and the out-of-state dollars that come with them – in our hometown newspapers.

Respectfully submitted,

Sarah Elmquist Squires
North Dakota Newspaper Association

Prepared by the North Dakota
Insurance Department
January 13, 2021

PROPOSED AMENDMENTS TO HOUSE BILL NO. 1062

Page 1, remove the overstrike over lines 12 through 21

Page 1, line 22, remove the overstrike over ~~"the commissioner within four months after
the filing of the annual statement"~~

Renumber accordingly

Dear House Industry, Business and Labor Committee members Reps Lefor, Keiser, Adams, Anderson, Hagert, Kasper, Louser, Nehring, O'Brien, Ostlie, Ruby, Schauer, Stemen, Thomas,

I am going to take a few minutes to tell you my concerns about HB 1062. I feel that this is a bad bill and you should vote no on it. Anytime that there is a move to remove legal notices from public and permanent access it is never a good thing.

- **Insurance public notice legals are \$670,000 from out-of-state insurance companies that goes directly to community newspapers and benefits small businesses and the communities that they are in.**
- **The point of public notices is for the public to have access to them and see them; insurance websites are not popular or easy to navigate. Newspapers are also a permanent unchangeable document once printed.**
 - **86% of North Dakotans read newspapers, according to a 2020 statewide survey, and 88% say they read public notices in newspapers**
 - **34% of seniors in the U.S. do not use the internet; 22% of folks in rural areas don't go online, and 35% who didn't graduate from high school don't use the internet (2018, Pew Research Center)**
- **Lastly I represent the states many small weekly newspapers. I am in a small, rural community and am one of the smallest newspapers in the state. The small weeklies have been hit the hardest by the economy down turn as we have seen many of our businesses that once brought in advertising dollars and provided employment to members of the community close. As the small weeklies lose this business the importance of these annual legal notices has been an important component to keeping our newspapers and businesses going. This annual boost in revenue helps keep my newspaper operating for several months. It also provides extra money for necessary equipment upgrades that would not otherwise be affordable on a shoe string budget. The loss of this income could be the final straw for myself and/or other small town community newspapers that will force us to close our doors for good.**

The loss of small town community newspapers would be devastating to the communities they serve as they are the only ones reporting on community events, celebrations, small town school and sporting events. We provide an invaluable service to our communities and can not afford anymore economic hits to our already dwindling incomes.

Thank you for your time and for considering my point of view.

*Thank you,

HB 1062

House Industry Business and Labor

Jan. 12, 2020

Good morning, Chairman Lefor and Members of the Committee. I'm Jill Denning Gackle, publisher of BHG newspapers, which are as far north as Garrison, as west as Beulah and as east as McClusky.

Please allow me to begin by telling you a little bit about a year as a weekly newspaper publisher during a world pandemic.

With 55 employees producing 9 newspapers for dozens of communities, we took the role of essential services very seriously. We mandated masks before they were unpopular, we turned our retail space into curbside pickup, we extended overdue subscriptions so people would keep informed until they could pay the bill. All while we watched event after event in our tourism/ community driven region cancel.

Advertisers were scared and still are. In Garrison, where the head printing office is located, we have two delicious dine-in restaurants that are struggling to keep staff paid and diners safe. The back page of the McLean County Independent was once highly sought after for entertainment and dining advertising. Today, we struggle to fill the page.

We're doing OK. Not great. Not horrible. We've managed to continue to produce newspapers that the public needs and wants. Subscriptions are up because people want to know what is going on their communities.

Here's what would happen if insurance public notice legals were eliminated. I hate to use the argument that a few of our newspapers are staying afloat because of the influx of those out-of-state public notice dollars, but there are at least two of our papers, and possibly four that would suffer another serious blow. All of our newspapers would feel it significantly. First a tight economy for ag related businesses, then COVID, then growing unemployment and still COVID. It's too much to ask this industry that is so essential to our local economies.

I can tell you about the readership of newspapers and how many people aren't going online to even check the free online newspaper we give them with a paid print subscription. I can tell you that many of our rural folks still don't have great internet service.

But here's what I want you to think long and hard about before you would consider voting to eliminate this out-of-state insurance revenue. I was the Sarah Elmquist Squires before Steve Andrist at the newspaper association. When I lobbied for five sessions, we saw this same bill twice. Again, it was the insurance commissioner who thought it was a little too much work for his office. It's not. The NDNA staff does all the placement, billing and collection. Each time – like probably today – the insurance companies never came forward to say they couldn't afford the small notice in the newspapers that keeps them a little more honest and transparent.

I hope you'll give this bill a strong "no." We don't need one more hit on the economy of the weekly newspapers, which are the glue that holds our small towns together.

Thank you for your consideration. Please vote "no" on HB1062.

Jill Denning Gackle

Committee Hearing
HB1062

Members, thank you for allowing me to share my thoughts on HB1062, I'd love to be there in person, however, I wanted to share my thought and look forward to discussing them with you in the future... here's my take on HB1062

Newspapers have been and continue to be the life blood of its community, especially in the rural areas. People in and from the community read their paper cover to cover. They don't always remember where they saw the information, but they know, 'It's in the paper somewhere' and are able to go back and look, or call the paper and ask where it was (and believe me we get these calls daily). This is one key reason I believe Insurance legals should stay where they are. Simply, by staying in their local newspaper, they are staying IN OUR COMMUNITY and these companies are coming to them sharing how they are spending the policy holder's money. Most times, these companies are NOT North Dakota, the decision makers have probably never stepped foot into our community, or even our state – our local agents are here (sometimes), but aren't high enough on the food chain to answer for some of this. This is one way our citizens can see first-hand where our money is being spent. I say our money, because it's our premiums paying for the legals, the big insurance companies are not paying for this...my neighbors are. I am 100% ok explaining to my neighbors why their premium is slightly higher when I am helping to keep people from the East or West coast accountable for their charges to us. Reading all of the legals can be daunting, but because the information in those documents are standardized across all of the companies, (meaning they all read the same way), easily shows me any large discrepancies that can be noted and we can see them, then decide for ourselves if it's time to look at another insurance company option. They key for me, again, is I am seeing this in my newspaper in my living room or kitchen table, in my house, in my community, in my state. I don't have to try to find it elsewhere, but if I want to look for it elsewhere, it's on my newspaper's website and North Dakota Newspaper's Website(s). Today, the internet is an easier option for some, but many North Dakotans, especially the elderly, do not have the knowledge to find them...however, once again, they are, where they always were...in THEIR newspaper.

Another obvious key reason is transparency. I am ok this should have been first, but I wanted to stress the local aspect and that IS the key to most North Dakotans. One can ask...Is that money being wasted? Well, any community promoter will tell you for every dollar spent in 'their' community, it generates \$7...now, who owns most of the newspapers in North Dakota...that's right, North Dakotans do...and again, they are the life blood of their community. This revenue, that again comes from premiums...paid for by people in our community...will get used locally, within the communities these papers cover. If we stop, will these dollars go back into North Dakotan's hands, into premium holder's hands...don't kid yourself...(PAUSE) we know the answer to that! And, if we stop printing them in our hometown paper, will we know where to find these in the future, will we lose confidence in these companies for not allowing us to see this information in OUR newspaper? Will we continue to have the sense that these insurance companies are in this game of life WITH us – or trying to hide even more that they don't think we need to know? I believe if you ask a North Dakotan insurance customer if they'd prefer these documents out in the open, in public, in THEIR paper, they would overwhelmingly say yes, they like them where they are. Then, if you tell them a very small amount of those legals are being paid for by their premiums and disclose that TRUE amount...I believe they'd all say YES, keep that going as they know it today – they can always easily look back if need be.

I am proud to own a small independent newspaper, my doors would remain open if this bill were to pass, but it may affect my employees raises, my next technology upgrade, my donation to the music or sports boosters, or even adding more full color pages to my paper so the basketball game or kids with Santa can be in color versus black and white, but I guess I'd need to hear all the reasonings of why someone doesn't

think it's a good practice to leave things as they are, as they have been for years....honest and open to everyone as, again, they have been for decades...because I know the above and several more reasons I like them where they are...in MY house, in MY paper, and where I can get to them any time I want...adding onto that...bottom line...simple transparency.

Saying newspapers are dead is just not true, been hit hard may be true in other states, but not North Dakota. Since taking over my paper in 2005, my subscriptions are up, my advertising is up, and my community appreciates and supports me...and so do the hundreds that have moved away, but still subscribe to their hometown paper – now, a large percentage is on-line due to past postal issues, but nonetheless, they still subscribe, read, have reasons to call home, donate to the local church, and many more reasons to keep the trusted, hometown connection. Think about it...how many of your high school classmates and friends still get their hometown newspaper in some form or fashion, then...pass it onto someone else...or now, how many share their hometown newspapers website username and password...the answer is a LOT! And if we have to go back to look at an insurance legal from 1985 or 2015...we can count on one place we know it's going to be...in my hometown newspaper. Why remove that trust, that security, that sense that I am part of a decision making process where I live, own property, or just still care about. I know posting these legals is good for my paper, my family, and my readers. I know my readers feel that way too.

Thank you for your time,

Sincerely
Paul Erdelt

RE: House Bill 1062

DATE: January 11, 2021

I ask that you **vote 'NO' on HB 1062**, introduced at the request of Insurance Commissioner Godfrey.

The bill seeks to omit the requirement for insurance companies to publish in a newspaper an abstract of insurance company's annual statement. Instead, the bill proposes to provide the abstracts on the insurance commissioner's website.

To amend and reenact the proposed sections of the North Dakota Century Code as Commissioner Godfrey proposes would fail to provide public notice to the people of North Dakota.

Newspapers Provide the Essential Criteria of a Public Notice.

1. **Accessible** – Every citizen in the jurisdiction affected by the notice must have a realistic opportunity to read it.
2. **Archivable** – Notices must be capable of being archived in a secure and publicly available format for the use of the judicial system, researchers and historians.
3. **Independent** – Notices must be published by organizations independent of the government body or corporation whose plans or actions are the subject of the notice.
4. **Verifiable** – There must be a way to verify that each notice was actually published in accordance with the law.

Requiring independent, third-party newspapers with a financial and civic interest in ensuring that public notices run in accordance with the law was our legislative ancestors' way of verifying. As Ronald Reagan was fond of saying: "Trust, but verify."

Posting the public notice of insurance abstracts on the website of the Insurance Commissioner would not satisfy these criteria.

- 86% of North Dakotans read newspaper, according to a 2020 statewide survey, and 88% say they read public notices in newspaper.
- 34% of seniors of seniors in the United States do not use the internet. 22% of people who live in rural areas don't go online.
- In the 2020 General Election, 82% of North Dakota voters (74,652 to 15,966), in 215 cities across the state, voted in favor of publishing city board meeting minutes as public notices in NEWSPAPERS. This emphasizes the truth that printed publication of public notices are read and highly regarded to the citizens of North Dakota.

Please vote 'NO' to HB 1062.

Sincerely,

Anne Ehni, Publisher
The Herald-Press

HOUSE BILL NO. 1062

Presented by: **John Arnold**
 Deputy Commissioner
 North Dakota Insurance Department

Before: **Senate Industry, Business and Labor Committee**
 Senator Jerry Klein, Chairman

Date: **February 16, 2021**

TESTIMONY

Good Morning, Chairman Klein and members of the committee. My name is John Arnold and I am the Deputy Insurance Commissioner for the North Dakota Insurance Department. I appear before you this morning in support of House Bill 1062, which was introduced at that request of Commissioner Godfread, and deals with certain records from insurance companies licensed in this state.

Section one would expand access to the abstracts of the annual statements that are filed with the Department. Currently, this abstract must be published three times in a newspaper of general circulation in each judicial district in which the company conducts business. The Department is suggesting that this abstract also be made available on its website. We believe that this increases access to public as paging through legal notices in hopes of finding this information will no longer be the only method available.

Sections two and three extend the confidentiality granted to the work papers of the Department's statutory financial examinations to those of the quarterly financial analysis and of market conduct examinations. The Department has found that the confidentiality of work papers in financial examinations leads to an increase in communication and collaboration through the free flow of information between insurers and examination staff. It is important to note that these amendments only deal with the working papers and does not apply to the final report, which remains a public document.

Finally, section four would exempt rate and form filings from open records laws until the they have been approved by the Department. This includes filings that insurers have withdrawn from consideration or the Department has disapproved.

I respectfully request a “do pass” recommendation from the committee on House Bill 1062. I am happy to take any questions.
