REPORT OF STANDING COMMITTEE
HB 1354 ([25.1077.01000](#))

Industry, Business and Labor Committee (Rep. Warrey, Chairman) recommends **DO PASS** (13 YEAS, 0 NAYS, 1 ABSENT AND NOT VOTING). HB 1354 was placed on the Eleventh order on the calendar.

The Honorable Jonathan Warrey
North Dakota House of Representatives
Chair, Industry, Business and Labor Committee

RE: HB1354

Dear Chairman Warrey and Members of the House Industry, Business and Labor Committee:

The North Dakota Appraisers Association (NDAA) was established in 2016 and represents approximately 140 Appraiser Members within the State of North Dakota. The NDAA is an association of Appraisers for Appraisers. Our primary goals include - Gaining greater public trust and confidence through non-partisan interaction with legislative bodies, government regulatory agencies and other related organizations; Promoting high standards of conduct within the appraisal profession; To foster and promote the appraisal profession through outreach to affiliated industries.

The NDAA strongly supports HB1354 which would allow appraisers to perform evaluations for financial institutions regulated by federal agencies under the Interagency Appraisal and Evaluations Guidelines. This legislation modernizes outdated restrictions in the North Dakota Century Code and improves service options for lenders and consumers.

Key Benefits of HB1354

- **For Lenders and Consumers:**
 - Higher quality evaluations from trained professionals, reducing regulatory risk.
 - Time savings with a finished product requiring less internal labor for review.
 - Improved statewide service coverage, especially in rural areas.
 - Increased options for evaluation services, leading to better customer service.
 - Reduced consumer wait times and costs.
 - Greater confidence in handling complex property evaluations.
- **For Appraisers:**
 - Helps maintain steady work during periods of low lending volume, retaining professionals in the field.
 - Flexibility to diversify service offerings, enabling appraisers to perform both appraisals and evaluations, which are valuable in varying market conditions.
 - Improve training pathways for apprentice appraisers, thereby expanding opportunities to enter the appraisal profession.
 - Removes legal restrictions that prevent appraisers from performing evaluations, allowing them to compete effectively.

What is an Evaluation? Evaluations are valuation products used by financial institutions to estimate the market value of real property for transactions below certain de minimis thresholds. Unlike full appraisals, evaluations are not required to comply with USPAP but must meet sound banking practices and reliability standards. The Interagency Guidelines explicitly recognize appraisers as qualified to perform evaluations. Regulatory oversight of these products remains the responsibility of financial institutions to ensure compliance and quality.

Addressing Misconceptions

- **HB1354 does not reduce regulatory oversight** but rather allows appraisers to compete on equal terms with other professionals authorized to perform evaluations.
- **HB1354 does not eliminate any other group of professionals from performing evaluations** but rather seeks to include appraisers.

Why This Legislation is Necessary The current North Dakota Century Code unintentionally excludes appraisers—the most qualified valuation professionals—from performing evaluations. This outdated restriction limits competition and reduces consumer choice, delaying wait times and increasing costs. Allowing appraisers to perform evaluations will enhance service availability and maintain high standards of quality and reliability. Approximately 15 states have adopted similar measures, to include the neighboring states of South Dakota and Minnesota. Modernizing the law will strengthen the industry and better serve the public and financial institutions.

Conclusion

The North Dakota Appraisers Association believes that by passing HB1354, you can ensure a more efficient, competitive, and consumer-friendly valuation process, benefiting lenders, borrowers, and professionals across the state. We respectfully ask the Committee to recommend a "Do Pass" recommendation on HB1354. In support of this recommendation, NDAA past President and current Chair of the Government Affairs Committee, Dean Rylander, will be providing in-person testimony and available for questions.

What does 1354 do? It allows ND appraisers to do evaluations for the Banks using their guidelines under federal banking regulations instead of the state appraiser regulations. USPAP Explain.

This bill is a workforce bill in a few different ways. Real Estate transactions done in a timely manner are needed for housing purchases for new workers in ND. This bill specifically helps the workforce of newly trained appraisers and to make sure there are enough appraisers in the future especially when/if interest rates drop again.

The rise in interest rates has taken its toll on appraisers new to the industry. The number of appraisers is decreasing and only a limited amount of apprentices. It takes about 3-5 years to get an appraiser trained, licensed and with the requisite amount of experience. If we want enough appraisers in the future we need HB 1354.

MEMORANDUM

DATE: January 21, 2025
TO: House Industry, Business and Labor Committee
FROM: Lise Kruse, Commissioner
SUBJECT: Neutral Testimony - House Bill No. 1354

Chairman Warrey and members of the House Industry, Business and Labor Committee, thank you for the opportunity to testify on House Bill No. 1354. Our department oversees banks, credit unions and non-bank mortgage lenders. Appraisal rules for financial institutions are set at the federal level. When an appraisal is not required, the financial institution must obtain a property evaluation. Federal rules establishes that anyone can conduct an evaluation, as long as they have expertise, is independent, and capable of rendering an unbiased opinion. The department is neutral to this Bill since it does not contradict or further restrict what is in federal law.

Mr. Chairman, thank you for the opportunity to provide this testimony. I would be happy to answer any questions the Committee may have.

Testimony in Opposition to HB 1354

Industry and Business Committee

Chairman Jeff Barta

Chairman Barta and Members of the Senate Industry and Business Committee,

My name is Brittney Roehrich and I'm the Chief Executive Officer for the North Dakota Association of Builders (NDAB). NDAB represents the professional building industry through legislation, information and education with 1,400 members statewide. We are also chartered with the National Association of Home Builders (NAHB). On behalf of NDAB, I submit this testimony in **opposition** to House Bill 1354.

As currently written, NDAB is opposed to HB 1354. Our concern is the lack of clarity as to who can provide evaluations. Currently, licensed real estate agents provide broker price opinions (BPOs) or valuations on real estate requested by lending institutions, builders, and consumers. HB 1354 would allow appraisers to go beyond the Uniform Standards of Professional Appraisal Practices to perform evaluations. Our first concern is that appraisers will now spend more time doing evaluations rather than doing appraisals. Our second concern is that real estate agents will no longer be allowed to do valuations or BPOs.

However, we support the suggested amendments provided by the North Dakota Association of Realtors. These amendments would provide clarity by referring to federal guidelines regarding evaluations which allow licensed real estate agents and others to continue to perform evaluations, valuations, and BPOs. We recognize the amendments do allow appraisers to do evaluations but agree the compromise for clarity is worth it.

In conclusion, the North Dakota Association of Builders urges the committee to **amend** House Bill 1354 with the amendments suggested by North Dakota Association of Realtors. NDAB could then support HB 1354.

Thank you for your consideration, and we look forward to working together to build a stronger, more resilient housing market for our state.

Respectfully submitted,

Brittney Roehrich, *Chief Executive Officer*

Chairman Barta and Members of the Senate Industry and Business Committee, for the record my name is Jill Beck, and I am the CEO representing the North Dakota Association of REALTORS® (NDAR).

The North Dakota Association of REALTORS® membership is made up of more than 2,200 REALTORS® and more than 250 Business Partner members.

We oppose this bill in its current form but are offering two section amendments which would move us to a support position. Please note that we shared this and visited with the North Dakota Appraisal Association and had hoped to come to a compromise. They did inform us that some of this information was in the original bill, but the Legislative Council had it removed.

Real estate licensees can not and do not preform appraisals but do what is known as Brokers Price Opinions (BPOs) when requested which is a different work product. In a past session when a similar bill was brought forward, I was sent an email from a member of the appraisal industry leadership stating their takeaway is that anyone who directly or indirectly conducts this business without a permit is guilty of a class A misdemeanor and that would include REALTORS® giving value. Our industry is aware that we can do Brokers Price Opinions (BPOs), and we do not reference them as appraisals or value. This is clarified in law and with the North Dakota Financial Institutions. While I do not know how many BPOs are being done by our REALTOR® members we do not want to jeopardize the ability for them to do them.

We would like to recommend the following two amendments with the new language in yellow:

~~9.~~ 10. "Board" means the North Dakota real estate appraiser qualifications and ethics board. The certification and licensing provisions of this chapter shall not apply to transactions exempted from the requirements of Title XI of the Financial Institutions Recovery, Reform, and Enforcement Act of 1989.

We would like this language added to ensure that real estate licensees and the other exemptions can remain. The ND Appraisal Association had proposed to us to change this to

info@ndrealtors.com | www.ndrealtors.com

Interagency Appraisal and Evaluation Guidelines under Appendix A (Appraisal Exemptions) but after legal review and consultation we prefer our language as it is enforceable and not just guidance.

Section 14 we both have agreed to this change:

14. "Evaluation" means an estimate of the value of real property, made in accordance with the federal Interagency Evaluation Guidelines, for use in a federally related real estate financial transaction for which an appraisal is not required by federal law.

I am not a practitioner and can not answer any questions in regards to process of BPOs but have several members in attendance today who could.

We urge a DO NOT PASS on House Bill 1354 in its current form and request consideration of the above mentioned amendments.

Testimony in support of amendments to HB 1354
Senate Industry & Business Committee
March 12, 2025

Good morning Chair Barta and members of the Industry and Business Committee,

The following comments are on behalf of the Real Estate Valuations Advocacy Association (REVA), a trade association representing state regulated appraisal management companies (or AMC). Our members work with bank and non-bank lenders across the country and here in North Dakota to facilitate residential property valuations including evaluations, Broker Price Opinions, Property Data Collection and appraisals.

Evaluations, as defined by federal guidelines, are an important residential valuation product that lenders and AMCs provide with the help of appraisers, realtors and other qualified professionals in compliance with federal requirements when an appraisal is not required.

HB 1354 is important in that it attempts to clarify who can perform an evaluation and adds an exemption to allow North Dakota appraisers to perform evaluations outside of the Uniform Standards of Appraisal Practice. Clarity on who may perform an evaluation is important as there are currently differing interpretations on whether the state is following minimum federal guidelines for evaluation or is more restrictive as to who can perform an evaluation in North Dakota. As a result, today AMCs are following the more restrictive Real Estate Appraiser Board's interpretation that prohibits AMCs from working with non-appraisers such as North Dakota Realtors to perform an evaluation.

REVA supports the intention in the proposed amendments in HB 1354 to provide clarity and ensure appraisers can perform evaluations along with realtors and others. We believe the text amendments adopted should be consistent with federal minimum requirements to ensure state compliance and avoid confusion.

Respectfully submitted,

Mark Schiffman, Executive Director for REVA

21 general appraiser.
- 22 12-13. "Certified residential appraiser" means a person who holds a valid permit as a certified
23 residential appraiser.
- 24 14. "Evaluation" means an estimate of the value of real property and real estate made in
25 accordance with title XI of the Financial Institutions Reform, Recovery, and
26 Enforcement Act of 1989 [Pub. L. 101-73, 103 Stat. 183] and provided to an entity
27 regulated by an agency for use in a ~~federally related~~ real estate-related financial
28 transaction for which an appraisal is not required by federal law.
- 29 13-15. "Licensed appraiser" means a person who holds a valid permit as a licensed
30 appraiser.

Sixty-ninth
Legislative Assembly

1 ~~14-16.~~ "Permit" means the document issued by the board, verifying that the person named on
2 the permit has fulfilled all prerequisites to practice either as an apprentice appraiser, a
3 licensed appraiser, or a certified appraiser.

4 ~~15-17.~~ "Real estate" means an identified parcel or tract of land including improvements, ~~and~~
5 ~~interests, benefits, and rights inherent in the ownership of real estate~~ if any.

6 ~~16-18.~~ "Real property" means one or more defined interests, benefits, and rights inherent in
7 the ownership of real estate.

8 19. "Uniform standards of professional appraisal ~~practices~~ practice" means standards of
9 appraisal promulgated by the appraisal standards board of the appraisal foundation as
10 adopted by the board.

11 ~~17-19-20.~~ "Valuation" means an estimate of the value of real estate or real property.

12 **SECTION 2. AMENDMENT.** Section 43-23.3-04 of the North Dakota Century Code is
13 amended and reenacted as follows:

14 **43-23.3-04. Permit required - Exemptions.**

- 15 1. Except as provided in this section, a person may not directly or indirectly engage in,
16 advertise, conduct the business of, or act in any capacity as an apprentice, licensed,
17 or certified appraiser without first obtaining a permit as provided in this chapter.
