DEFINED CONTRIBUTION RETIREMENT PLAN AND DEFERRED COMPENSATION PROGRAM VENDORS STUDY- BACKGROUND MEMORANDUM

Section 2 of 1999 Senate Bill No. 2025, the appropriations bill for the Retirement and Investment Office and the Public Employees Retirement System, provides for a Legislative Council study of defined contribution retirement plan and deferred compensation program vendors. This section provides that the "legislative council shall consider studying the number, qualifications, and selection criteria for vendors and providers selected by the public employees retirement system board for the defined contribution retirement plan established under House Bill No. 1257 and the deferred compensation program administered by the board under chapter 54-52.2."

DEFINED CONTRIBUTION RETIREMENT PLAN

House Bill No. 1257 (1999) established a defined contribution retirement plan for nonclassified state employees. North Dakota Century Code Section 54-52.6-04 provides that the Public Employees Retirement System Board is to administer the defined contribution retirement plan and the board or vendors contracted for by the board shall invest the assets of the plan. Section 54-52.6-05 provides that each participating member directs the investment of the individual's accumulated employer and employee contributions and earnings to one or more investment choices within available categories of investment provided by the board.

DEFERRED COMPENSATION PROGRAM

North Dakota Century Code Chapter 54-52.2 governs deferred compensation plans for public employees. Section 54-52.2-03 provides that the "administration of the deferred compensation program for each state agency, department, board, commission, or institution is under the direction of the public employees retirement board . . . and (the board) shall administer the deferred compensation program based on a plan in compliance with the appropriate provisions of the Internal Revenue Code and regulations adopted under those provisions." Section 54-52.2-03.2 outlines the authority of the Public Employees Retirement System concerning the deferred compensation program. This section provides that:

1. The board shall adopt rules necessary to implement this chapter and to manage the deferred compensation

plan subject to the limitations of this chapter.

2. The board shall do all things necessary to preserve the tax-exempt status of the plan.
3. All providers must be authorized to do business in this state and all agents of providers must be licensed by the appropriate licensing authority or authorities in this state.
4. To continue to participate in the program, each provider must report annually, in a form and manner specified by the board, information related to their products, administrative and management fees, contract and maintenance charges, withdrawal penalties, market rating, and such other information the board may require.
5. The board may suspend participation of any provider that does not meet the requirements of this chapter or the rules adopted by the board.
6. The board has the authority to establish a deferred compensation advisory committee which shall include active providers who have signed a provider administrative agreement with the state of North Dakota deferred compensation plan.

Concerning the selection of vendors under the deferred compensation program, the Public Employees Retirement System Board has adopted a policy that a vendor must have 50 participants to be an approved vendor. A *Summary of Investment Options For the NDPERS Deferred Compensation Program* is attached as an appendix.

MINNESOTA

Minnesota Statutes Section 352.96 establishes a deferred compensation program for Minnesota public employees. Subdivision 2 of Section 352.96 provides that compensation deferred may be used to purchase:

1. Shares in the Minnesota supplemental investment fund established in Section 11A.17;
2. Savings accounts in federally insured financial institutions;
3. Life insurance contracts, fixed annuity and variable annuity contracts from companies

that are subject to regulation by the commissioner of commerce;

4. Investment options from open-end investment companies registered under the federal Investment Company Act of 1940, United States Code, Title 15, Sections 80a-1 to 80a-64;
5. Investment options from a firm that is a registered investment advisor under the Investment Advisors Act of 1940, United States Code, Title 15, Sections 80b-1 to 80b-21;
6. Investment options of a bank as defined in United States Code, Title 15, Sections 80b-2, subsection (a), paragraph (2), or a bank holding company as defined in the Bank Holding Company Act of 1956, United States Code, Title 12, Section 1841, subsection (a), paragraph (1); or
7. A combination of clause (1), (2), (3), (4), (5), or (6), as provided by the plan as specified by the participant.

Subdivision 3 of Section 352.96 provides that if the State Board of Investment so elects, it may solicit bids for options under subdivision 2, clauses (2), (3), (4), (5), and (6). The State Board of Investment may retain consulting services to assist it in soliciting and evaluating bids and the periodic review of companies offering options under subdivision 2, clauses (3), (4), (5), and (6). The periodic review must occur at least every two years. The State Board of Investment may annually establish a budget for its costs in the soliciting, evaluating, and periodic review processes. The State Board of Investment may charge a proportional share of costs related to the periodic review to each company currently under contract and may charge a proportional share of all costs related to soliciting and evaluating bids to each company selected by the state board. All contracts must be approved before execution by the State Board of Investment. Contracts must provide that all options in subdivision 2 must be presented in an unbiased manner and in a manner that conforms to rules adopted by the executive director, be reported on a periodic basis to all employees participating in the deferred compensation program, and not be subject to unreasonable solicitation of state employees to participate in the program. Finally, all costs or fees in relation to the options provided under subdivision 2, clauses (3), (4), (5), and (6), must be paid by the companies ultimately selected by the State Board of Investment.

Subdivision 4 of Section 352.96 allows the executive director of the Minnesota state retirement system with the advice and consent of the board of directors to establish rules and procedures to carry out Section 352.96 including allocation of administrative costs of the plan to participants. Fees cannot be charged on contributions and investment returns attributable to contributions made to the Minnesota supplemental investment funds before July 1, 1992. Annual total fees charged for plan administration for the Minnesota supplemental investment funds cannot exceed forty hundredths of one percent of the contributions and investment returns attributable to contributions made on or after July 1, 1992.

NUMBER, QUALIFICATIONS, AND SELECTION CRITERIA FOR VENDORS

In an April 26, 1999, *Fortune* magazine article entitled "Can You Have Too Many 401(k) Choices?," the author noted that the average number of 401(k) investment choices had increased from 4.6 in 1994 to 8.4 in 1998 and that some experts believe that employees are getting too much of a good thing. One commentator noted that once you get above 11 or 12 options, you really start to get confusion at the participant level and that when offered a number of new funds, employees may experience "paralysis by analysis" and may not place any money in the new funds. The author concludes that "for the worker/investor, the best solution, the experts say, is to have a multiplicity of options that are organized into tiers based on the employees' financial sophistication. Typical plans have three tiers. One offers seven to 11 core funds. A second tier, for less savvy workers, has three to five premixed portfolios, organized by risk tolerance. And, for the truly adventurous, there is a top tier with a wide range of riskier or more sophisticated options. (Often this will include a mutual fund "window" or a brokerage account offering dozens of fund options--or even pretty much any fund or stock imaginable.)"

STUDY APPROACH

In carrying out its study of defined contribution retirement plan and deferred compensation program vendors, interested entities would include current and potential defined contribution plan and deferred compensation program vendors, the Public Employees Retirement System Board, state employee representatives, and retired state employees.

<u>Section III - Provider Representatives NDPERS Section 457 Deferred Compensation Plan</u>	III-1

Introduction

The information in this summary is organized into three sections. Section I (page I-1) details the investment options that will be available through the NDPERS Deferred Compensation Plan effective October 1, 1998. Section II (pages II-1 - II-28) lists the investment options currently available through the NDPERS Section 457 Deferred Compensation Plan. The options identified include those providers who have agreed to participate in the plan as of 8-31-98. This information has been organized in alphabetical order by provider company. The objective, annual expenses and historical performance information is provided for each investment option. Due to the inception date of some investment funds, historical performance information is not available and is indicated with "N/A" (not available). Instances in which information was not provided by the provider companies are indicated by "N/P" (not provided). Section III lists the representatives you can contact at each provider company for more information.

The annual expense column includes fund expense ratios and any applicable fees to pay for service, distribution and marketing costs (12b-1 fees), operating expenses, asset management fees, separate account charges, or mortality and expense charges imposed by the provider. It does not, however, include any withdrawal, surrender or deferred sales charges or miscellaneous administrative and account maintenance fees. Whenever possible, withdrawal, surrender or deferred sales charges, etc. have been noted at the bottom of the page. Please refer to your prospectus or contact your provider company for more complete information. The other fees column indicates whether additional information is footnoted about fees and/or withdrawal provisions (Y=yes, N=no).

The net historical performance results column reflects all fund expense ratios and any applicable 12b-1 fees, operating expenses, asset management fees, separate account charges, or mortality and expense charges imposed by the provider. They do not, however, reflect any withdrawal, surrender or deferred sales charges or administrative account maintenance fees.

The information included in this summary is strictly quantitative in nature and is intended to provide an evaluation of the returns and expenses associated with the investment options available through your deferred compensation program. This summary does not present factors that are more subjective in nature such as 1) the quality, availability and responsiveness of client service, 2) verification of the investment style underlying the investment options, and 3) the longevity and stability of the investment professionals managing the investment options. These factors should also be taken into consideration when selecting provider companies and investment options. Please contact your provider companies to obtain this information.

Please keep in mind when reviewing the historical performance information, that past performance does not guarantee future performance. This *Summary of Investment Options* is not a prospectus. It is only intended to provide basic information about the available investment options. Please contact the individual provider companies for a prospectus containing more detailed information.

The material presented in this *Summary of Investment Options* has been compiled from information supplied by the provider companies to the NDPERS Section 457 Deferred Compensation Plan. To the best of our knowledge this information is accurate and complete although we have not independently verified its accuracy or completeness.

The following abbreviations are used in the "Type of Investment" column on the following pages:

FA - Fixed Annuity	MF - Mutual Fund
VA - Variable Annuity	CF - Commingled Fund

Annuities versus Mutual Funds

Annuities

The investment options currently offered through the NDPERS Section 457 Deferred Compensation Plan are set up primarily as annuities, although some are offered in the form of mutual funds. Annuities - both fixed and variable - are essentially tax-sheltered accounts offered by life insurance companies. Fixed annuities pay a fixed interest rate per period. Variable annuities pay a rate linked to the investment performance of an underlying portfolio of investments, such as a mutual fund.

In addition to the fees charged for the management of the underlying investment, the annuity fund structure typically results in a second layer of fees, payable to the insurance company. There are often other administrative fees and withdrawal penalties associated with annuities. Although all applicable fees should be provided in this *Summary of Investment Options*, you should discuss fees in detail with a provider company representative.

Mutual Funds

The investment funds that will be available through the NDPERS Deferred Compensation Companion Plan consist of a series of mutual funds and a commingled fund. Mutual funds are registered with the Securities and Exchange Commission (SEC) and their prices and performance are usually reported daily in the newspapers. Commingled funds are pooled investment vehicles that are similar to mutual funds but are not registered with the SEC and may or may not be reported in the newspapers.

Typically, the annual expenses associated with mutual fund options reflect the actual annual expense ratio charged by the mutual fund and an additional administration and recordkeeping fee charged by the provider company. In the case of your Companion Plan, any annual fees charged by mutual fund organizations to pay for service, distribution, and marketing costs (12b-1 fees) are rebated back to participants.

Summary of Investment Options

NDPERS Section 457 Deferred Compensation Plan

(Information current as of July 31, 1998)

The NDPERS Board provides this Summary as a service to the deferred compensation participants to help them make an informed decision regarding their investments. The NDPERS Board has not examined the investment options described in Section II of this Summary, and makes neither recommendation nor warranty regarding those options. The investment options offered are those the individual provider companies have determined they will offer to the participants using the provider's services.

Aetna Money Market VP	VA	Stability of Principal	1.15%	N	4.64%	4.79%	3.99%	5.11%

Other Fees:
None

Withdrawal Provisions:

If a contract is surrendered completely, or if you surrender your account to transfer to another carrier, a market value adjustment (MVA) may be applied to the Fixed Account portion of your account (or the contract holder may elect to have the surrendered amount paid out over a period of 60 months, with interest paid). This MVA may be waived under certain circumstances.

Funds that are withdrawn from the Guaranteed Accumulation Accounts may be subject to a market value adjustment (MVA) that may be positive or negative depending on whether interest rates have risen or fallen.

See your prospectus for complete details.

* Fund has less than 1 year since inception.

Other Fees:

The annual administrative charge is the lesser of 2% of the contract's total annuity account value or \$30.

A \$350 administrative charge will be assessed if a fixed annuity benefit involving life contingencies is chosen before five contract years have been completed. After five contract years, the charge does not apply and the current annuity rate will increase. If the beneficiary elects a life benefit and the participant dies, this charge will be waived. It is Equitable's current practice to increase the current annuity rates for life annuity distribution options by approximately 3%, once 5 contract years have been completed.

The administrative charge is waived for account balances of \$25,000 or greater.

Withdrawal Provisions:

Each contract year, after the completion of three contract years or attainment of age 59½, whichever is earlier, 10% of the contract's annuity account value may be withdrawn without incurring Equitable Life's contingent withdrawal charge. All withdrawal provisions are subject to Section 457 of the Internal Revenue Code.

Participants are assessed a surrender charge for early withdrawal of assets. These charges may be waived under certain circumstances. See your prospectus for complete details.

Provider Representatives

NDPERS Section 457 Deferred Compensation Plan

STATE OF NORTH DAKOTA DEFERRED COMPENSATION PLAN
LIST OF PROVIDER COMPANIES

This list is not inclusive of all sales representatives eligible to provide investment services for the State of North Dakota Deferred Compensation Plan. A sales representative, with any of the listed Provider Companies, who is licensed by the North Dakota State Securities Commissioner or the North Dakota State Insurance Commissioner or both, is eligible to provide investment services under the plan. This list is updated quarterly.
