LEGACY AND BUDGET STABILIZATION FUND ADVISORY BOARD - STATUS REPORT TO THE BUDGET SECTION JUNE 25, 2025

ADVISORY BOARD OVERVIEW

The Legacy and Budget Stabilization Fund Advisory Board was created by Senate Bill No. 2302 (2011) and is codified as North Dakota Century Code Section 21-10-11. The advisory board develops recommendations for the investment of funds in the legacy fund and the budget stabilization fund, which are presented to the State Investment Board (SIB). The advisory board reports to the Budget Section at least semiannually.

BUDGET STABILIZATION FUND

Asset Allocation Plan and Investment Returns

As of February 2025, the asset allocation of the fund is 99 percent short-term fixed income and 1 percent in cash and equivalents. The schedule below provides information on budget stabilization fund investment returns as reported by the Retirement and Investment Office (RIO). More detailed information regarding the balance of the fund by asset class and the investment returns, as reported by RIO, is attached as [Appendix A](#).

	Fiscal Year through February 2025			5 Years Ended June 30, 2024		
	Actual	Benchmark	Variance	Actual	Benchmark	Variance
Unaudited investment returns, net of fees	4.74%	4.11%	0.63%	2.09%	1.26%	0.83%

Balance and Transfers

Pursuant to Chapter 54-27.2, any amount in the general fund at the end of a biennium in excess of \$65 million must be transferred to the budget stabilization fund, except that the balance in the budget stabilization fund may not exceed 15 percent of the general fund budget approved by the most recently adjourned Legislative Assembly. The schedule below provides information on the balance of the budget stabilization fund and transfers between the budget stabilization fund and the general fund as reported by RIO.

	Fund Balance - Net Position	Transfer to the General Fund	Transfer from the General Fund
Fiscal Year 2021 - June 30, 2021 ¹	\$749,374,748	\$5,575,109	N/A
Fiscal Year 2022 - June 30, 2022 ²	\$717,359,225	\$0	N/A
Fiscal Year 2023 - June 30, 2023 ³	\$739,482,398	\$0	\$176,601,907
Fiscal Year 2024 - June 30, 2024 ⁴	\$919,633,735	\$58,328,500	N/A
Fiscal Year 2025 - February 28, 2025 ⁵	\$963,294,401	N/A	N/A

¹For June 30, 2021, the 15 percent statutory maximum for the balance of the budget stabilization fund was \$748,943,600 based on total 2021-23 general fund appropriations of \$4,992,957,330 as approved by the 2021 Legislative Assembly during the regular session. The June 30, 2021, balance exceeded the 15 percent statutory maximum because the transfer to the general fund was based on the May 31, 2021, balance of \$754,518,709 and did not include earnings or changes in the value of investments during June 2021.

²For June 30, 2022, the statutory maximum balance was \$751,568,600 because a contingent general fund appropriation of \$17,500,000 became effective on July 1, 2021, which increased the 2021-23 general fund appropriations to \$5,010,457,330. As a result, the maximum balance of the fund increased by \$2,625,000, from \$748,943,600 to \$751,568,600.

³For June 30, 2023, the statutory maximum balance was \$914,429,031 based on general fund appropriations for the 2023-25 biennium of \$6,096,193,537 approved by the 2023 Legislative Assembly during the regular session. Due to the timing of the transfer from the general fund to the budget stabilization fund, the June 30, 2023, balance does not include the transfer.

⁴For June 30, 2024, the statutory maximum balance was \$914,599,431 based on general fund appropriations for the 2023-25 biennium of \$6,097,537 approved by the Legislative Assembly during the October 2023 special legislative session. The June 30, 2024, balance exceeded the 15 percent statutory maximum because the transfer to the general fund was based on the May 31, 2024, balance of \$972,927,931 and did not include earnings or changes in the value of investments during June 2024.

⁵If the balance of the budget stabilization fund exceeds the limit in June 2025 (\$936,984,724) based on the general fund appropriations approved by the 2025 Legislative Assembly, the excess is transferred to the general fund.

LEGACY FUND

Asset Allocation Plan and Investment Returns

When the legacy fund was created in 2011, the Legacy and Budget Stabilization Fund Advisory Board recommended the SIB invest the legacy fund based on an asset allocation plan of 100 percent short-term fixed income investments. In April 2013, the advisory board recommended a new asset allocation plan to add domestic and foreign equities, real estate, real assets, and other fixed income investments to the portfolio for the legacy fund, which was approved by the SIB and fully implemented as of January 2015.

During the 2015-17 biennium, the Legacy and Budget Stabilization Fund Advisory Board authorized the SIB to transfer the investments in the Bank of North Dakota's CD match program from the budget stabilization fund to the legacy fund after the budget stabilization fund was liquidated during the 2015-17 biennium due to a budget shortfall.

The Legislative Assembly approved House Bill Nos. 1425 and 1512 (2021) directing the advisory board to develop an asset allocation plan for the legacy fund targeting 10 percent of fixed income and 10 percent of equity investments for in-state investment programs. In February 2021, the advisory board changed the asset allocation plan for the legacy fund authorizing the SIB to target 3 percent (with a range of 0 to 6 percent) of the legacy fund investments in private capital markets for an in-state investment program. The State Investment Board selected 50 South Capital to manage the in-state investment "growth fund."

In February 2022, RIO contracted with RVK, Inc., to study the legacy fund asset allocation plan and in-state equity investments. The advisory board updated the investment policy in October 2022 to reflect a target allocation of 20 percent for in-state investments. In June 2023, the advisory board revised the investment policy to reflect additional changes to the asset allocation of the investments of the legacy fund based on recommendations from RVK, Inc., including changes approved during the 2023 legislative session, decreasing the allocations to core fixed income investments, treasury inflation-protected securities, domestic equities, and international equities while increasing the allocations to the Bank of North Dakota's CD match program, private credit, high yield fixed income, private equity, and in-state private equity.

As of February 28, 2025, in-state investments total \$465.1 million, or approximately 3.8 percent of the total investments under the legacy fund. The in-state investments include \$92.4 million for the legacy infrastructure loan fund, \$306.4 million for the Bank of North Dakota's CD match program, and \$66.3 million for the growth fund.

The schedule below provides information on legacy fund investment returns as reported by RIO. More detailed information regarding the investment returns is attached as [Appendix B](#).

	Fiscal Year through February 2025			5 Years Ended June 30, 2024		
	Actual	Benchmark	Variance	Actual	Benchmark	Variance
Unaudited investment returns, net of fees	6.63%	6.46%	0.17%	6.64%	5.74%	0.90%

Revenue Deposits

The schedule below provides information on the oil and tax revenues and transfers from the strategic investment and improvements fund deposited in the legacy fund since the 2011-13 biennium.

	Oil and Gas Tax Revenue Deposits	Transfers from the Strategic Investment and Improvements Fund ¹	Total Legacy Fund Deposits
2011-13 biennium	\$1,132,412,536	\$146,001,725	\$1,278,414,261
2013-15 biennium	1,679,854,750	201,879,330	1,881,734,080
2015-17 biennium	815,796,247		815,796,247
2017-19 biennium	1,248,613,201		1,248,613,201
2019-21 biennium	965,917,312		965,917,312
2021-23 biennium	1,576,253,276		1,576,253,276
2023-25 biennium - May 31, 2025	1,443,299,439		1,443,299,439
Total	\$8,862,146,761	\$347,881,055	\$9,210,027,816

¹Pursuant to Section 15-08.1-08, if the unobligated balance of the strategic investment and improvements fund exceeded \$300 million at the end of any month, 25 percent of any revenues received for deposit in the strategic investment and improvements fund was deposited instead into the legacy fund. Beginning July 2015, House Bill Nos. 1176 and 1377 (2015) removed the provisions requiring the additional transfers.

Balance and Transfers

The schedule below provides information on the balance of the legacy fund and transfers to the general fund as reported by RIO. Pursuant to a November 2016 Attorney General's opinion, all earnings accruing through the end of

the 2015-17 biennium (\$436,839,672) became part of the principal of the legacy fund. Earnings after June 30, 2017, as defined in Section 21-10-12, are transferred to the general fund at the end of each biennium. During the 2019-20 and 2021-22 interims, the Legacy Fund Earnings Committee studied the potential uses of legacy fund earnings.

Beginning with the 2021-23 biennium, House Bill No. 1380 (2021) established a percent of market value (POMV) calculation to determine the amount of legacy fund earnings available for spending each biennium and created a legacy earnings fund. At the end of each biennium, legacy fund earnings transferred to the general fund would be immediately transferred to a legacy earnings fund, from which the Legislative Assembly would appropriate or transfer the earnings to various purposes with the amount of spending based on the POMV. House Bill No. 1379 (2023) changed the amounts designated from the legacy earnings fund for bond payments, tax relief, and other legislative purposes.

For the 2017-19 and 2019-21 bienniums, legacy fund earnings were defined as interest, dividends, and realized gains and losses resulting in the exclusion of unrealized gains and losses from the definition of earnings. In Senate Bill No. 2330 (2023), the Legislative Assembly applied the POMV to the definition of legacy fund earnings by changing the statutory definition from realized earnings to an amount based on 7 percent of the 5-year average balance of the legacy fund.

House Concurrent Resolution No. 3033 (2023) provides a constitutional amendment to clarify the process for biennial distributions from the legacy fund, including changing the distribution date from June 30th to July 1st of each odd-numbered year and decreasing the amount of principal that can be spent from the fund from 15 to 5 percent. The constitutional amendment was approved by the voters in the November 2024 election.

House Bill No. 1176 (2025) and Senate Bill No. 2012 (2025) increase the distribution from the legacy fund by 1 percent, from 7 to 8 percent, beginning with the distribution on July 1, 2025. Senate Bill No. 1279 (2025) extends a partial coal conversion tax exemption for coal conversion facilities and allocates the state share of coal conversion tax revenues to the legacy fund principal rather than the general fund beginning in fiscal year 2027, the 2nd year of the 2025-27 biennium.

	Fund Balance - Net Position	Total Net Investment Earnings	Transfer to the General Fund
2017-19 biennium - June 30, 2019 ¹	\$6,122,227,871	\$669,413,658	\$455,263,216
2019-21 biennium - June 30, 2021 ²	\$8,115,202,181	\$1,887,514,683	\$871,687,384
2021-23 biennium - June 30, 2023 ³	\$8,999,738,920	(\$194,962,309)	\$486,568,637
2023-25 biennium - February 28, 2025	\$12,104,227,819	\$1,766,609,232	N/A

¹For the 2017-19 biennium, due to the timing of investment reports, the earnings available for transfer to the general fund were based on the realized earnings through May resulting in 23 months of earnings. The 2019 legislative revenue forecast reflected an estimated transfer of \$300 million of earnings at the end of the 2017-19 biennium.

²For the 2019-21 biennium, the transfer reflected 24 months of earnings from June 1 prior to the beginning of the biennium through May 31 of the 2nd year of the biennium. The 2021 legislative revenue forecast reflected an estimated transfer of \$736 million at the end of the 2019-21 biennium. Pursuant to Senate Bill No. 2362 (2019), \$64.37 million of earnings was transferred from the general fund to the common schools trust fund because the actual legacy fund earnings exceeded \$164.37 million.

³The amount shown for the transfer to the general fund for the 2021-23 biennium reflects the POMV calculation for the 2021-23 biennium earnings of the legacy fund.
