## BUDGET CHANGES DURING THE INTERIM - EMERGENCY COMMISSION AND BUDGET SECTION APPROVAL PROCESS

This memorandum summarizes changes to the Emergency Commission and Budget Section process for approving state agency budget changes during the interim. The changes were approved by the Legislative Assembly in House Bill No. 1233 (2025).

### OVERVIEW

House Bill No. 1233 adjusts the Emergency Commission and Budget Section approval process for state agency budget changes during the interim. The bill provides that a specific legislative appropriation be provided for state contingencies identifying the amounts the Emergency Commission and Budget Section may approve each biennium for general fund, special funds, and federal funds. Based on agency requests approved by the Emergency Commission and Budget Section, the Office of Management and Budget transfers appropriation authority from the state contingencies appropriation to the approved agency. All requests submitted to the Emergency Commission also require Budget Section approval unless approval of the request is necessary to avoid an imminent threat to the safety of people or property due to a natural disaster or war crisis or an imminent financial loss to the state. The Budget Section may amend any request under consideration. The bill requires disaster funds approved by the Emergency Commission to be approved by the Budget Section. The bill repeals North Dakota Century Code Sections 54-16-04.2, 54-16-08, and 54-16-11.1 relating to the Emergency Commission authorizing the acceptance and expenditure of state special funds and other sources, state contingencies appropriations, and the Emergency Commission's ability to increase revenues and appropriation authority for intergovernmental service fund agencies.
